

Gif Animated Confetti  
Actions

# How it's work?

First, you'll need install Brush, Pattern and Action

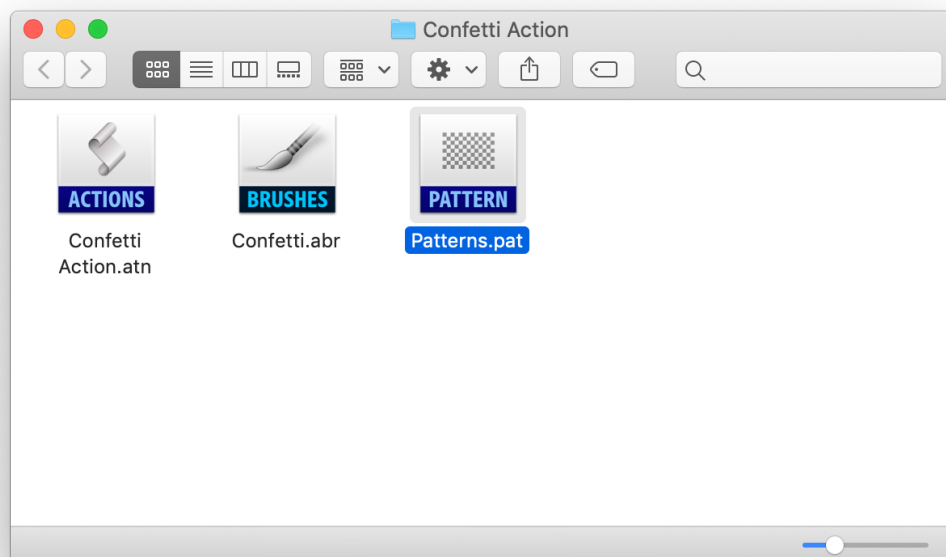

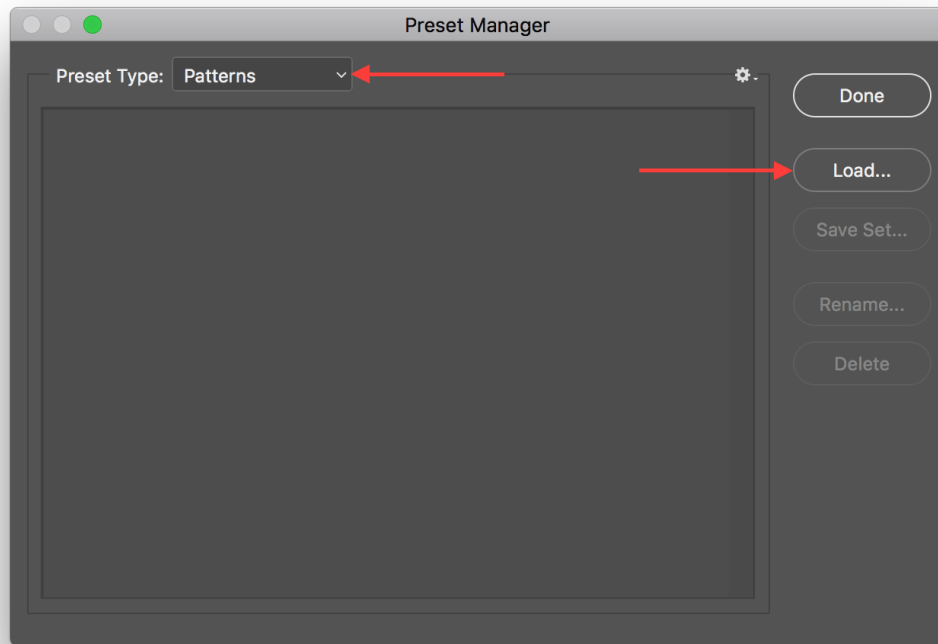

## How to Install the Brush

Go to Edit > Presets > Preset Manager. In the Preset Type, select Brushes, click load and choose Confetti.abr

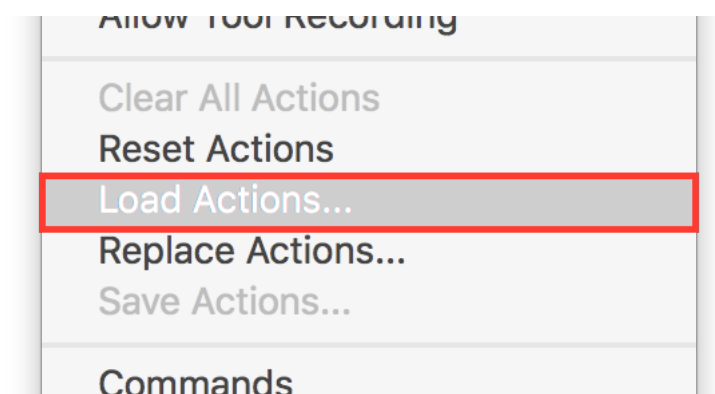

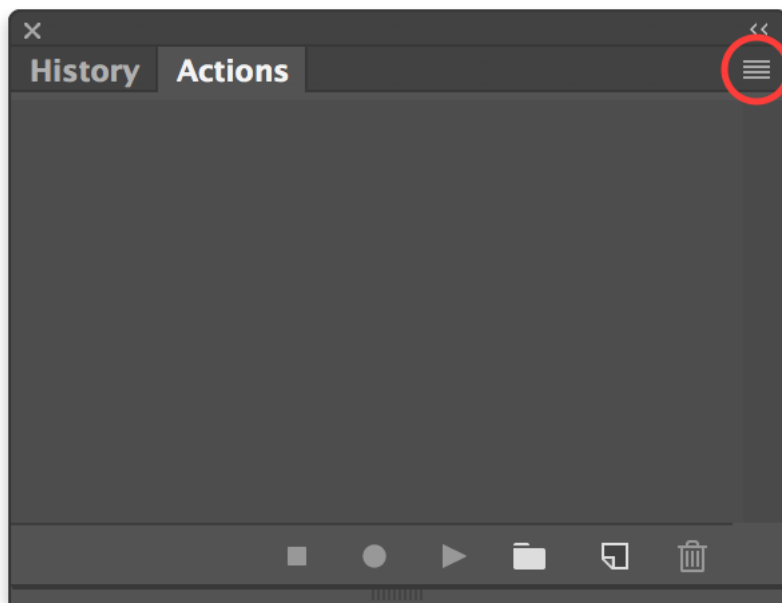

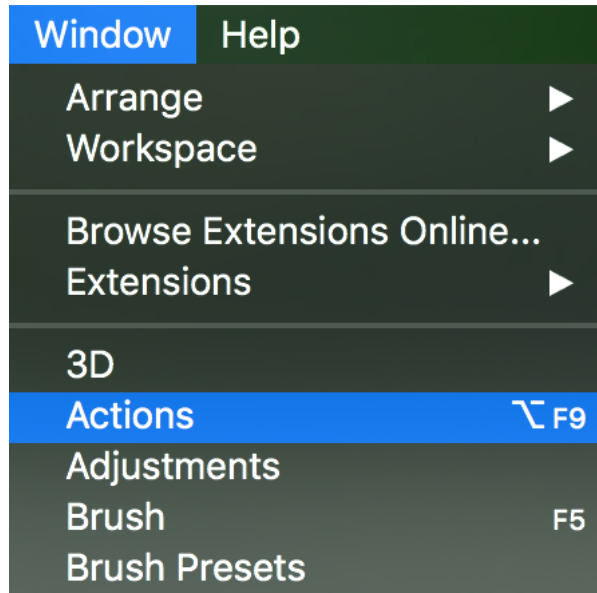

# How to Install the Pattern

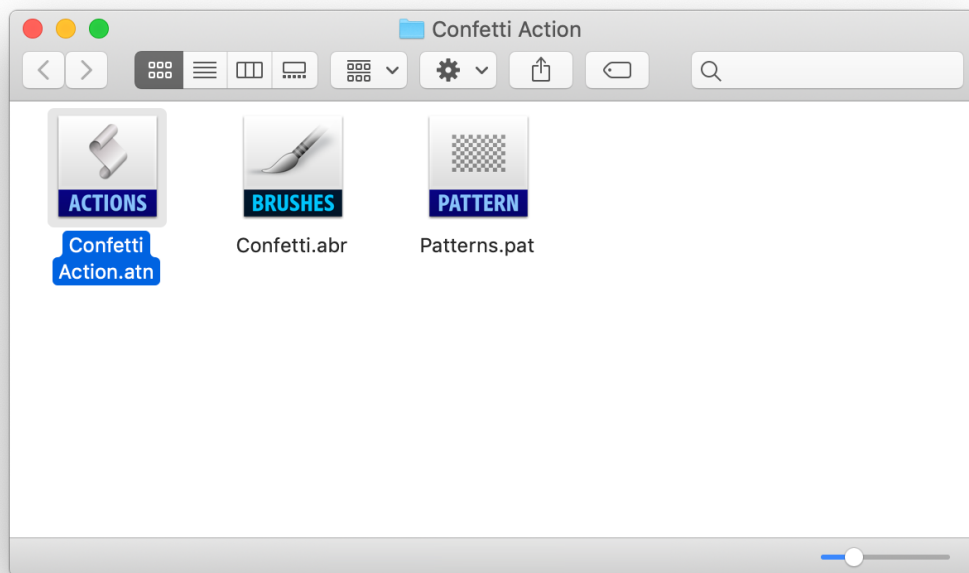

Go to Edit > Presets > Preset Manager. In the Preset Type, select Patterns, click load and choose Patterns.pat

# How to Install the Action

Go to Windows > Actions, select the action panel dropdown to Load Actions and choose Glitter.atn

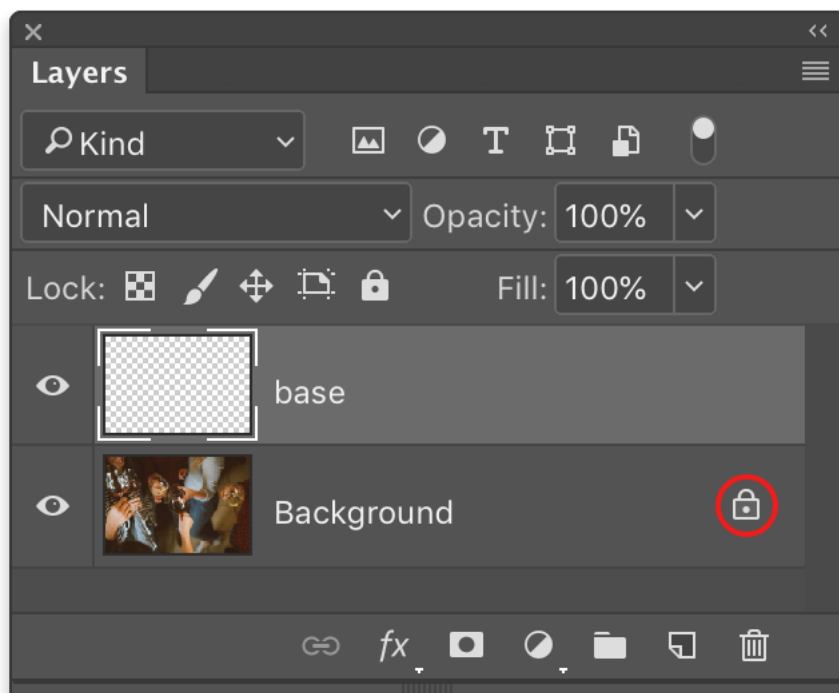

## Important!

1. Your photo is in RGB color mode
2. Your photo is in 8bit color mode
3. You are running the English version of Photoshop CC+  
Image has 72 Pixels/inch.

## How to use the Action

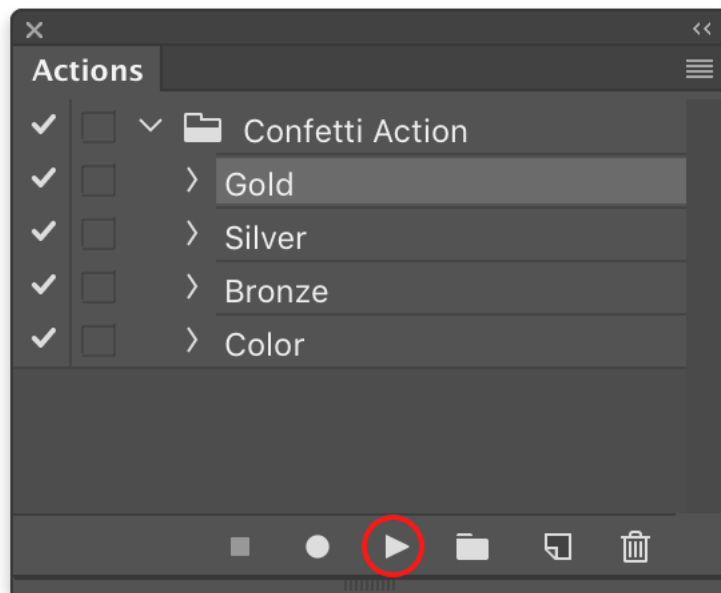

1. Open an image, for best results i recommend use image range from 1500-2000 px. Be sure that background image is locked.

2. Create a new layer with name «base» (without quotes)
3. Select brush (25-40px with any color) with opacity 100% and draw lines over the entire image

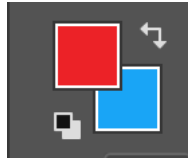

4. Select needed action from Action panel
5. Then play the Action

5. For animation gif go to File->Export->Save for web, set Looping option to Forever. For static image save file to jpg or png.

# How create color confetti

If you need create color confetti, before play the Action «Color» set different color for foreground and background color

Then play the Action «Color»
