How to put your own designs in mockups.

1: Double Click in the "paper" icon in layer pallet to edit smart object. In every layer that you can place your own artwork you will have Layer Name something like: ".... - Double Click to Edit".

2: Place your own artwork into Smart Object and click "Save" from File Menu or click Ctrl + S or Cmd + S on Mac.

Go back to your file and it should be updated with your own artwork.
