

Hello

Here You have some advices for common use of my template. If You need any further instructions or help, please contact me using contact form at my account profile.

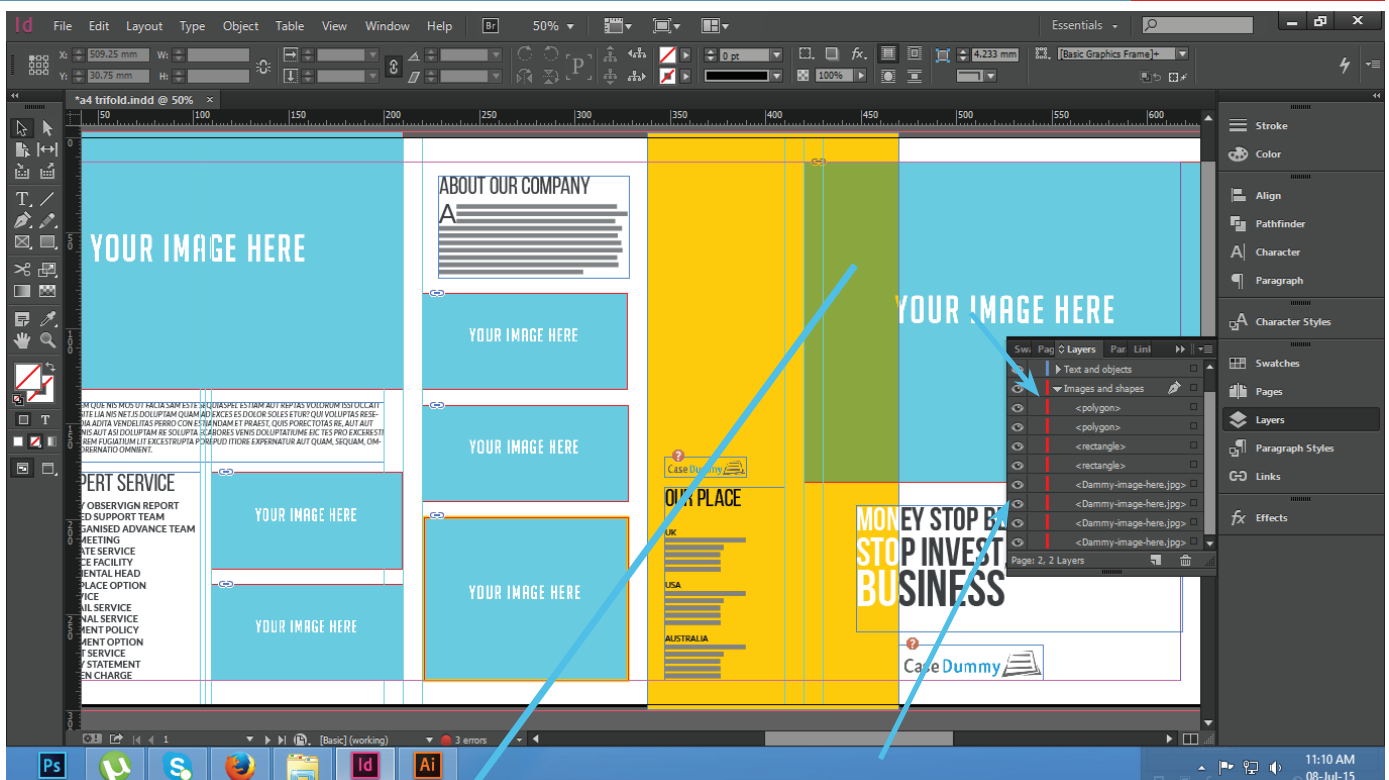

Thank You for purchasing my template !

Please Dont forget to rate 5 star at your download option now,

1. Unzip the ZIP package.
2. Open InDesign .indd files

**1. FILE IS LAYERED** - you have better access to every element in the project.

**InDesign**

Click Ctrl+D to select photo  
Press-Ctrl+Alt+Shift+C to fit.

Click here - lock the layer  
Block unused layers - easy to work

**Guides are on a separate layer.**

2. ALL SWATCHES ARE NAMED - with one click you can change colors of design elements or text.

InDesign

The screenshot shows the Adobe InDesign interface with a multi-page layout. A color swatch panel is open on the right, showing a list of swatches. A blue callout box points to the 'C=30 M=39 Y=14 K=9' swatch with the text: 'Double-click on COLOR NAME to edit color'. Below the swatch panel, the 'Swatch Options' dialog box is open, showing the same color values and a preview of the color.

ables quick adjustment of any changes in text attributes - on many pages at the same time

InDesign

The screenshot shows the Adobe InDesign interface with a multi-page layout. A paragraph style panel is open on the right, showing a list of paragraph styles. A blue callout box points to the 'Sub headline' style with the text: 'Double-click on STYLE LABEL to edit Style'. Below the paragraph style panel, the 'Paragraph Style Options' dialog box is open, showing the 'Sub headline' style settings.
