

Help Guide

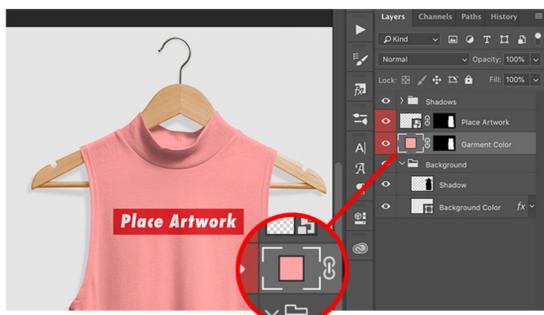

Thank you for purchasing this mockup! To help you get the most out of your product please read and follow these tips.

1. CLIPPING MASKS

Clipping masks are great for containing artwork within a defined area. If you move your garment around, make sure to turn the **chain icon** on. This allows the mask to move with your mockup.

If you only need to move your artwork within the garment you can keep the **chain icon** turned off.

2. GARMENT COLOR

Double click the **garment color layer thumbnail**. Now you can select your garment color in real time.

Helpful Tip

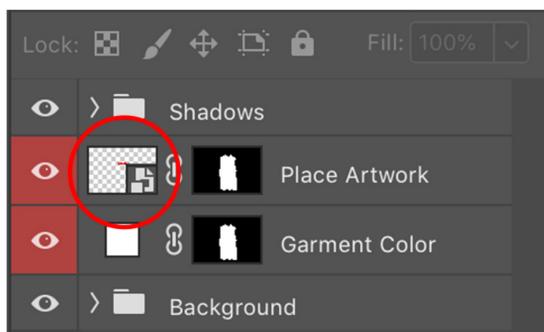

hold enter/return and click the layer mask to turn it off and on.

3. ADDING BACKGROUNDS

After downloading your files, locate the folder labeled **backgrounds**. Choose the background that suits you and drag/drop it into your open Photoshop file. Move it into the **background folder group**.

Lower the opacity to **10%-20%** for some great subtle results.

4. ADDING ARTWORK

- Double click the **smart object icon** on the place artwork layer.
- Turn off or delete the **artwork** layer.
- Drag/drop your artwork into the open file.
- Use the **template** to check where your artwork will be placed. Make sure to turn off!
- **Save and close.**

5. SAVING FILES FOR YOUR ONLINE SHOP

Saving with a transparent background

1. Turn off all background layers
2. Go to **File > Export > Quick Export as PNG**.
3. Name your file and save.

Saving with a background

1. Make sure your background is visible.
2. Go to **File > Save As**
2. Name your file - select the format **JPEG**
4. Save.
