Memphis Text Effects

Hello! Thank you so much for purchase!

[Please rate this item here](#)

My name is Andrew Skoch. I'm graphic designer and [GRAPHICRIVER AUTHOR](#) I tried to make super easy editable mockups. You just need to place your text into smart object.

If you need any help please feel free to contact me through the contact form on [MY PAGE](#) or via email: andrewsko490@gmail.com I will be happy for your comments and any feedback. It's always cool to see how my actions and mockups are used. So feel free to contact and show me your work.

Let's become friends!

First of all install fonts used in mockups.

Free Font for 'Author Tags':

<https://fonts.google.com/specimen/Alegreya+Sans>

<https://befonts.com/alentine-script-font.html>

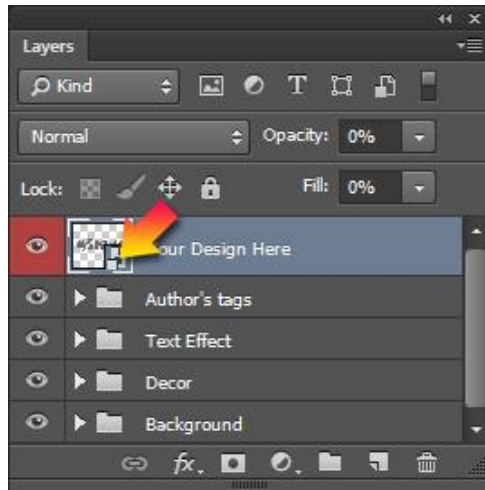

Free Fonts for mockups:

1. <https://www.dafont.com/lemon-milk.font>
2. <https://befonts.com/aldo-font-family.html>
3. <https://befonts.com/lot-font.html> <https://befonts.com/loveya-script-font.html>
4. <https://www.dafont.com/stijla.font>
5. <https://www.dafont.com/retro-stereo-wide.font>
6. <https://fonts.google.com/specimen/Alegreya+Sans>
7. <https://befonts.com/alva-font.html> <https://www.dafont.com/antonellie-calligraphy.font>
8. <https://befonts.com/bolden-typeface.html>

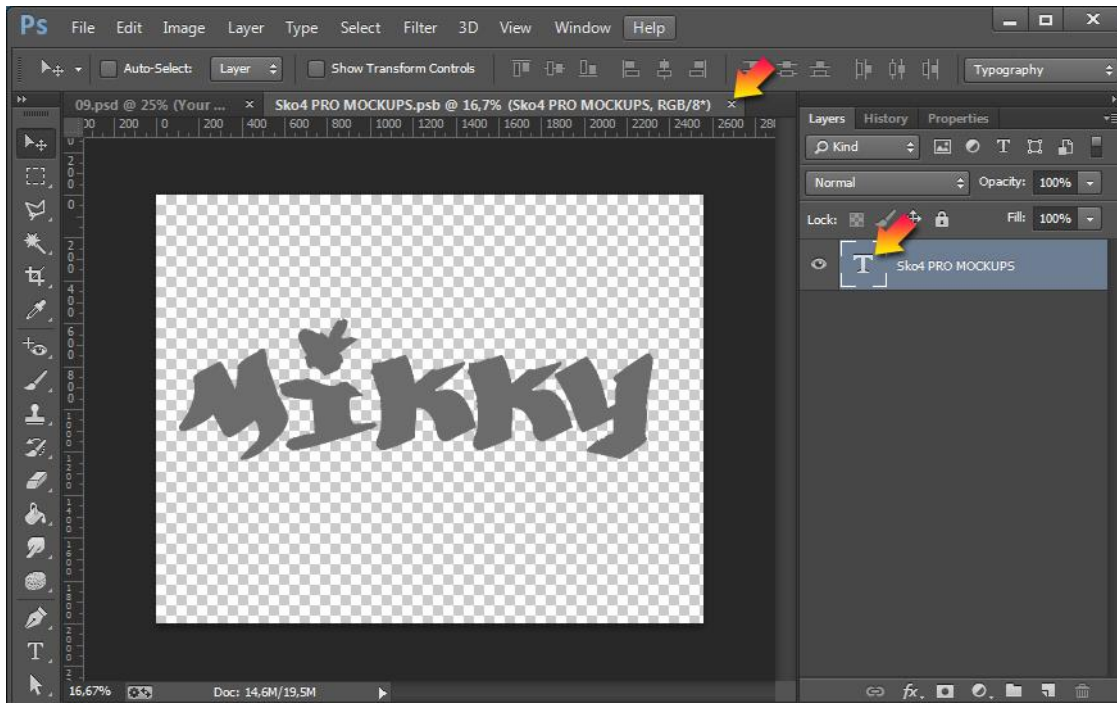

How to use mockups:

Go to the “Layers” panel.

If it's not visible go **Window** -> **Layers**. Or press **F7**

1. Double click smart object icon

2. Place your text in the just opened window
3. **SAVE** using: **File/Save** or **ctrl+S** on PC or **cmd+S** on Mac
4. Close the second window

Enjoy results! And good luck with your projects!
