HOW TO EDIT MOCKUP?

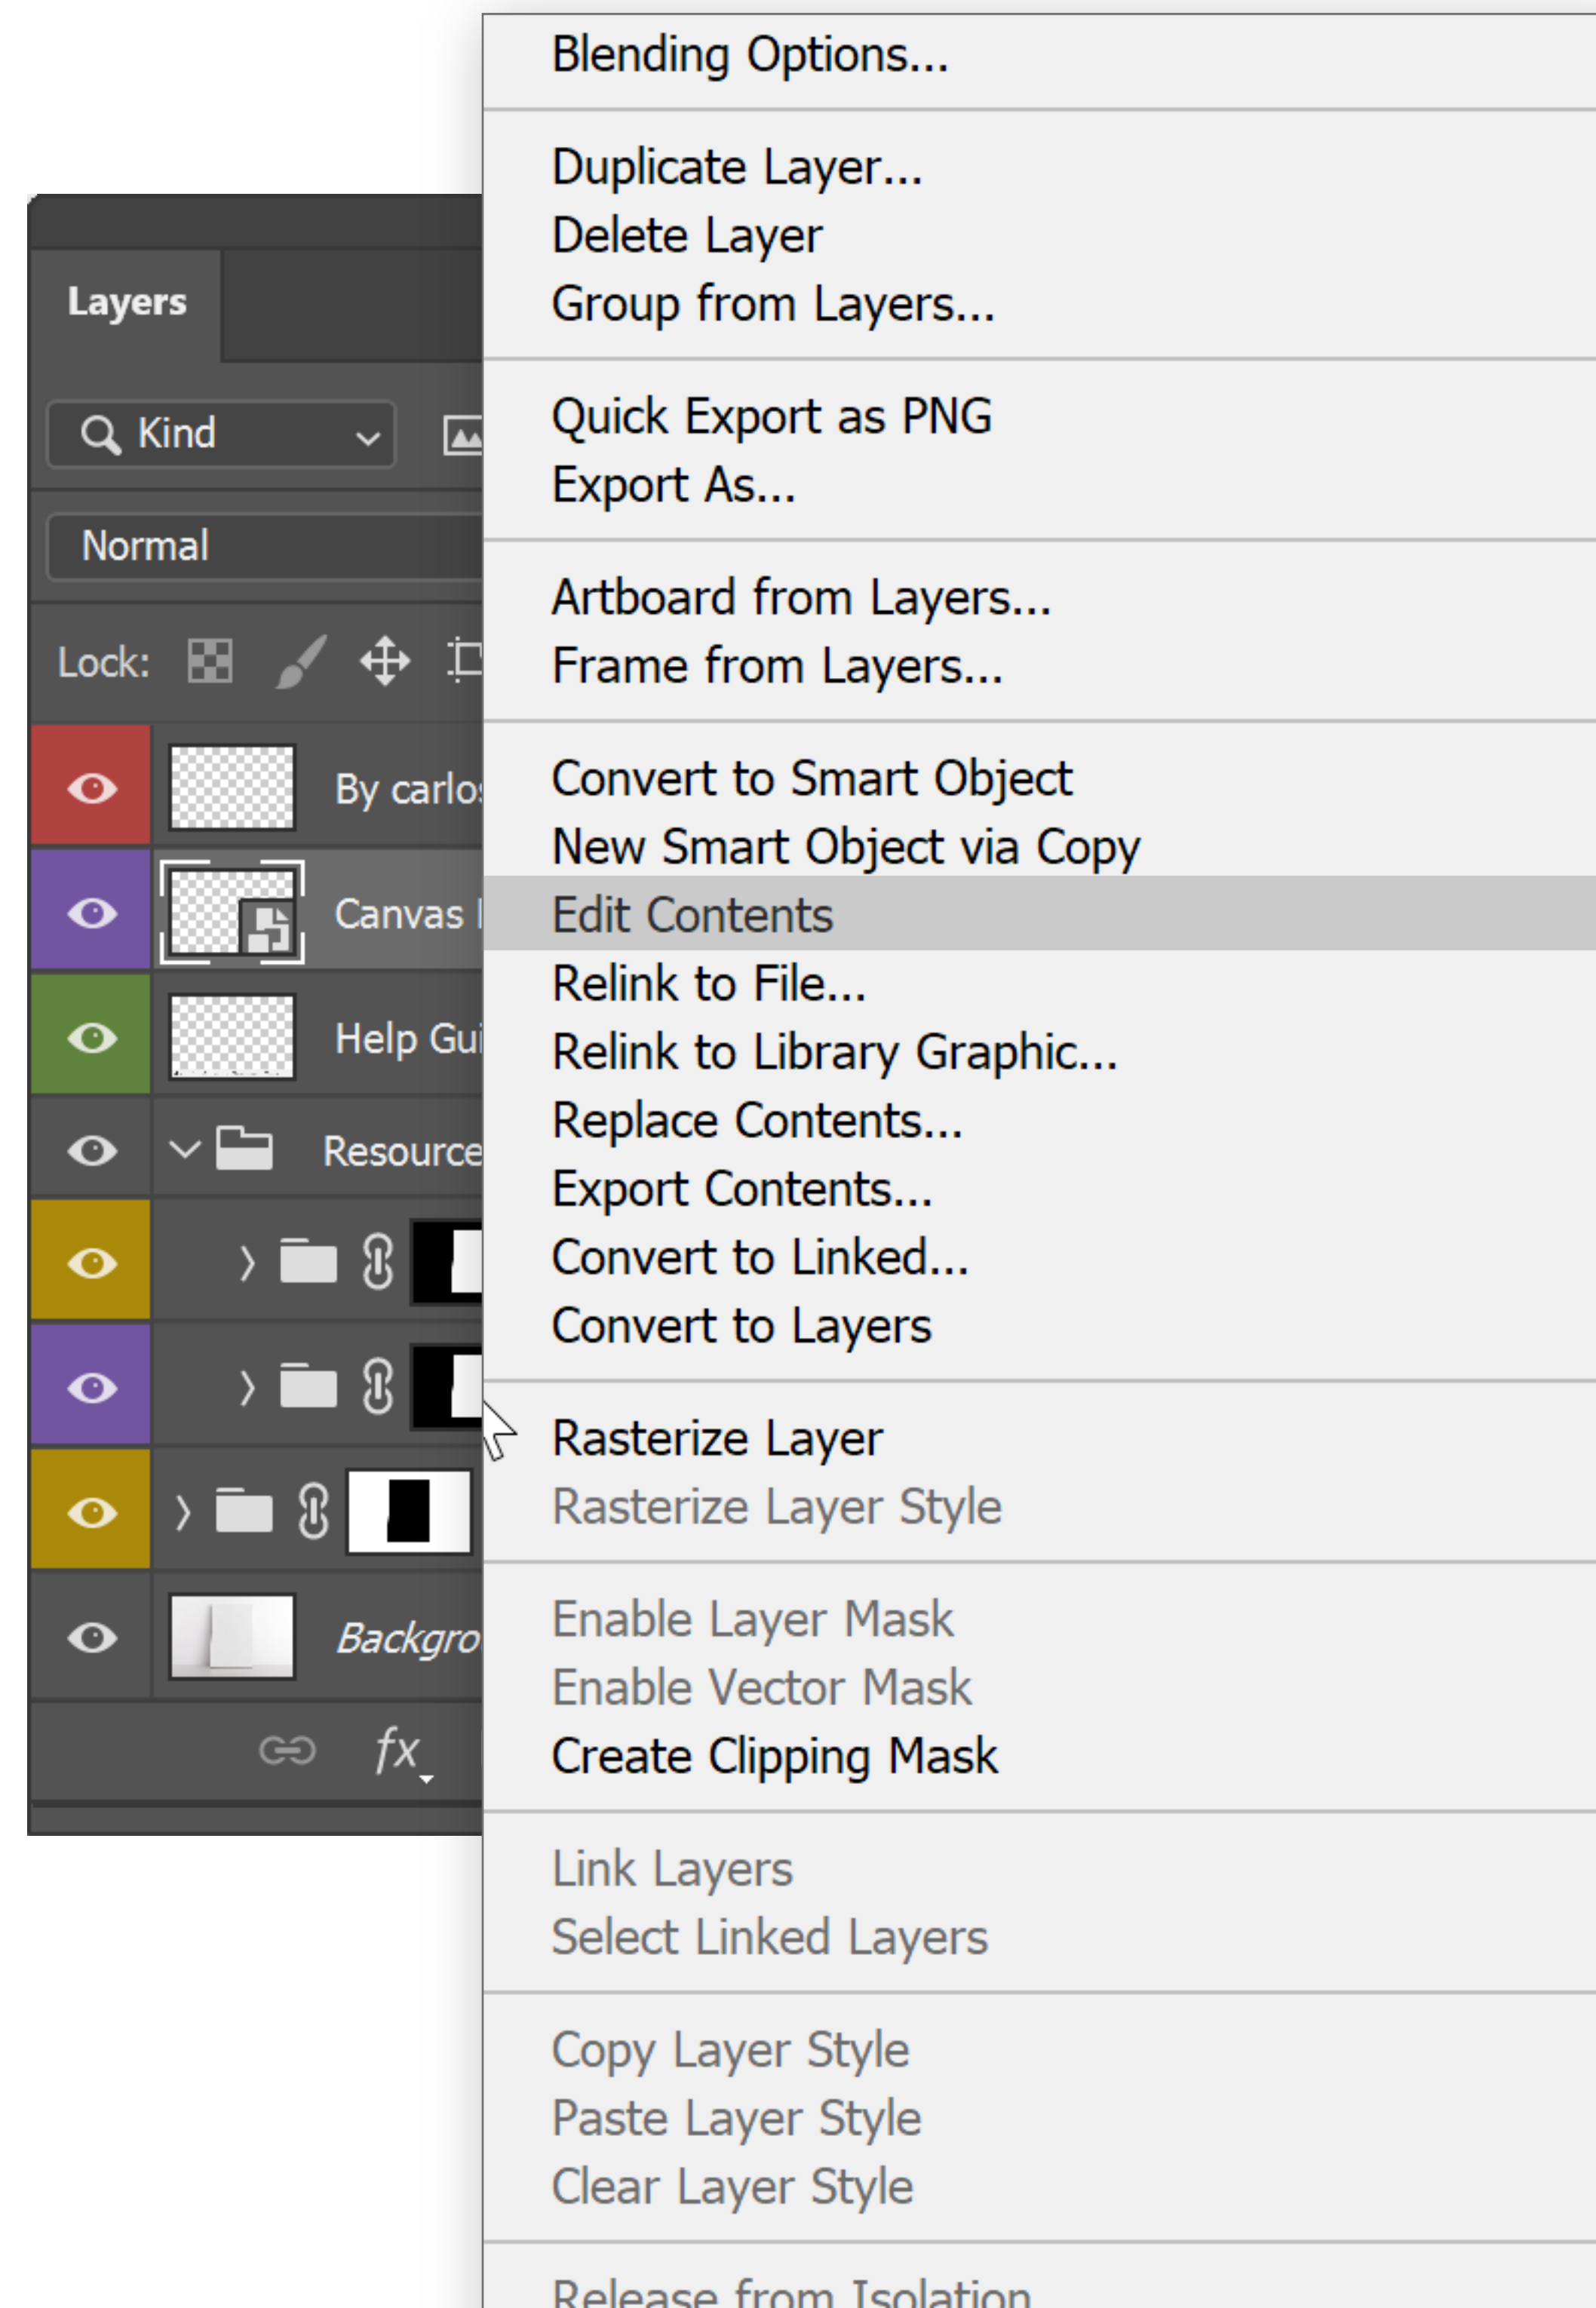

Hey! To customize the mockup you must follow the steps below:

1. Open the .PSD (mockup) file in Photoshop.

Files that its name start with "._" are temporary files from OSX

2. Locate in the Layers panel, the **purple** layers are **Smart Objects** where you should place your design. To edit a Smart Object just right click on the layer and select "Edit Content".

3. Place your design inside the new window that opened, - File / Place Embedded - save the changes and close.
Continue with the next Purple Layer if there are.

GALLERY, MIRROR & COLOR WRAPS

These mockups are three types of wraps that you can use in order you need for your project.

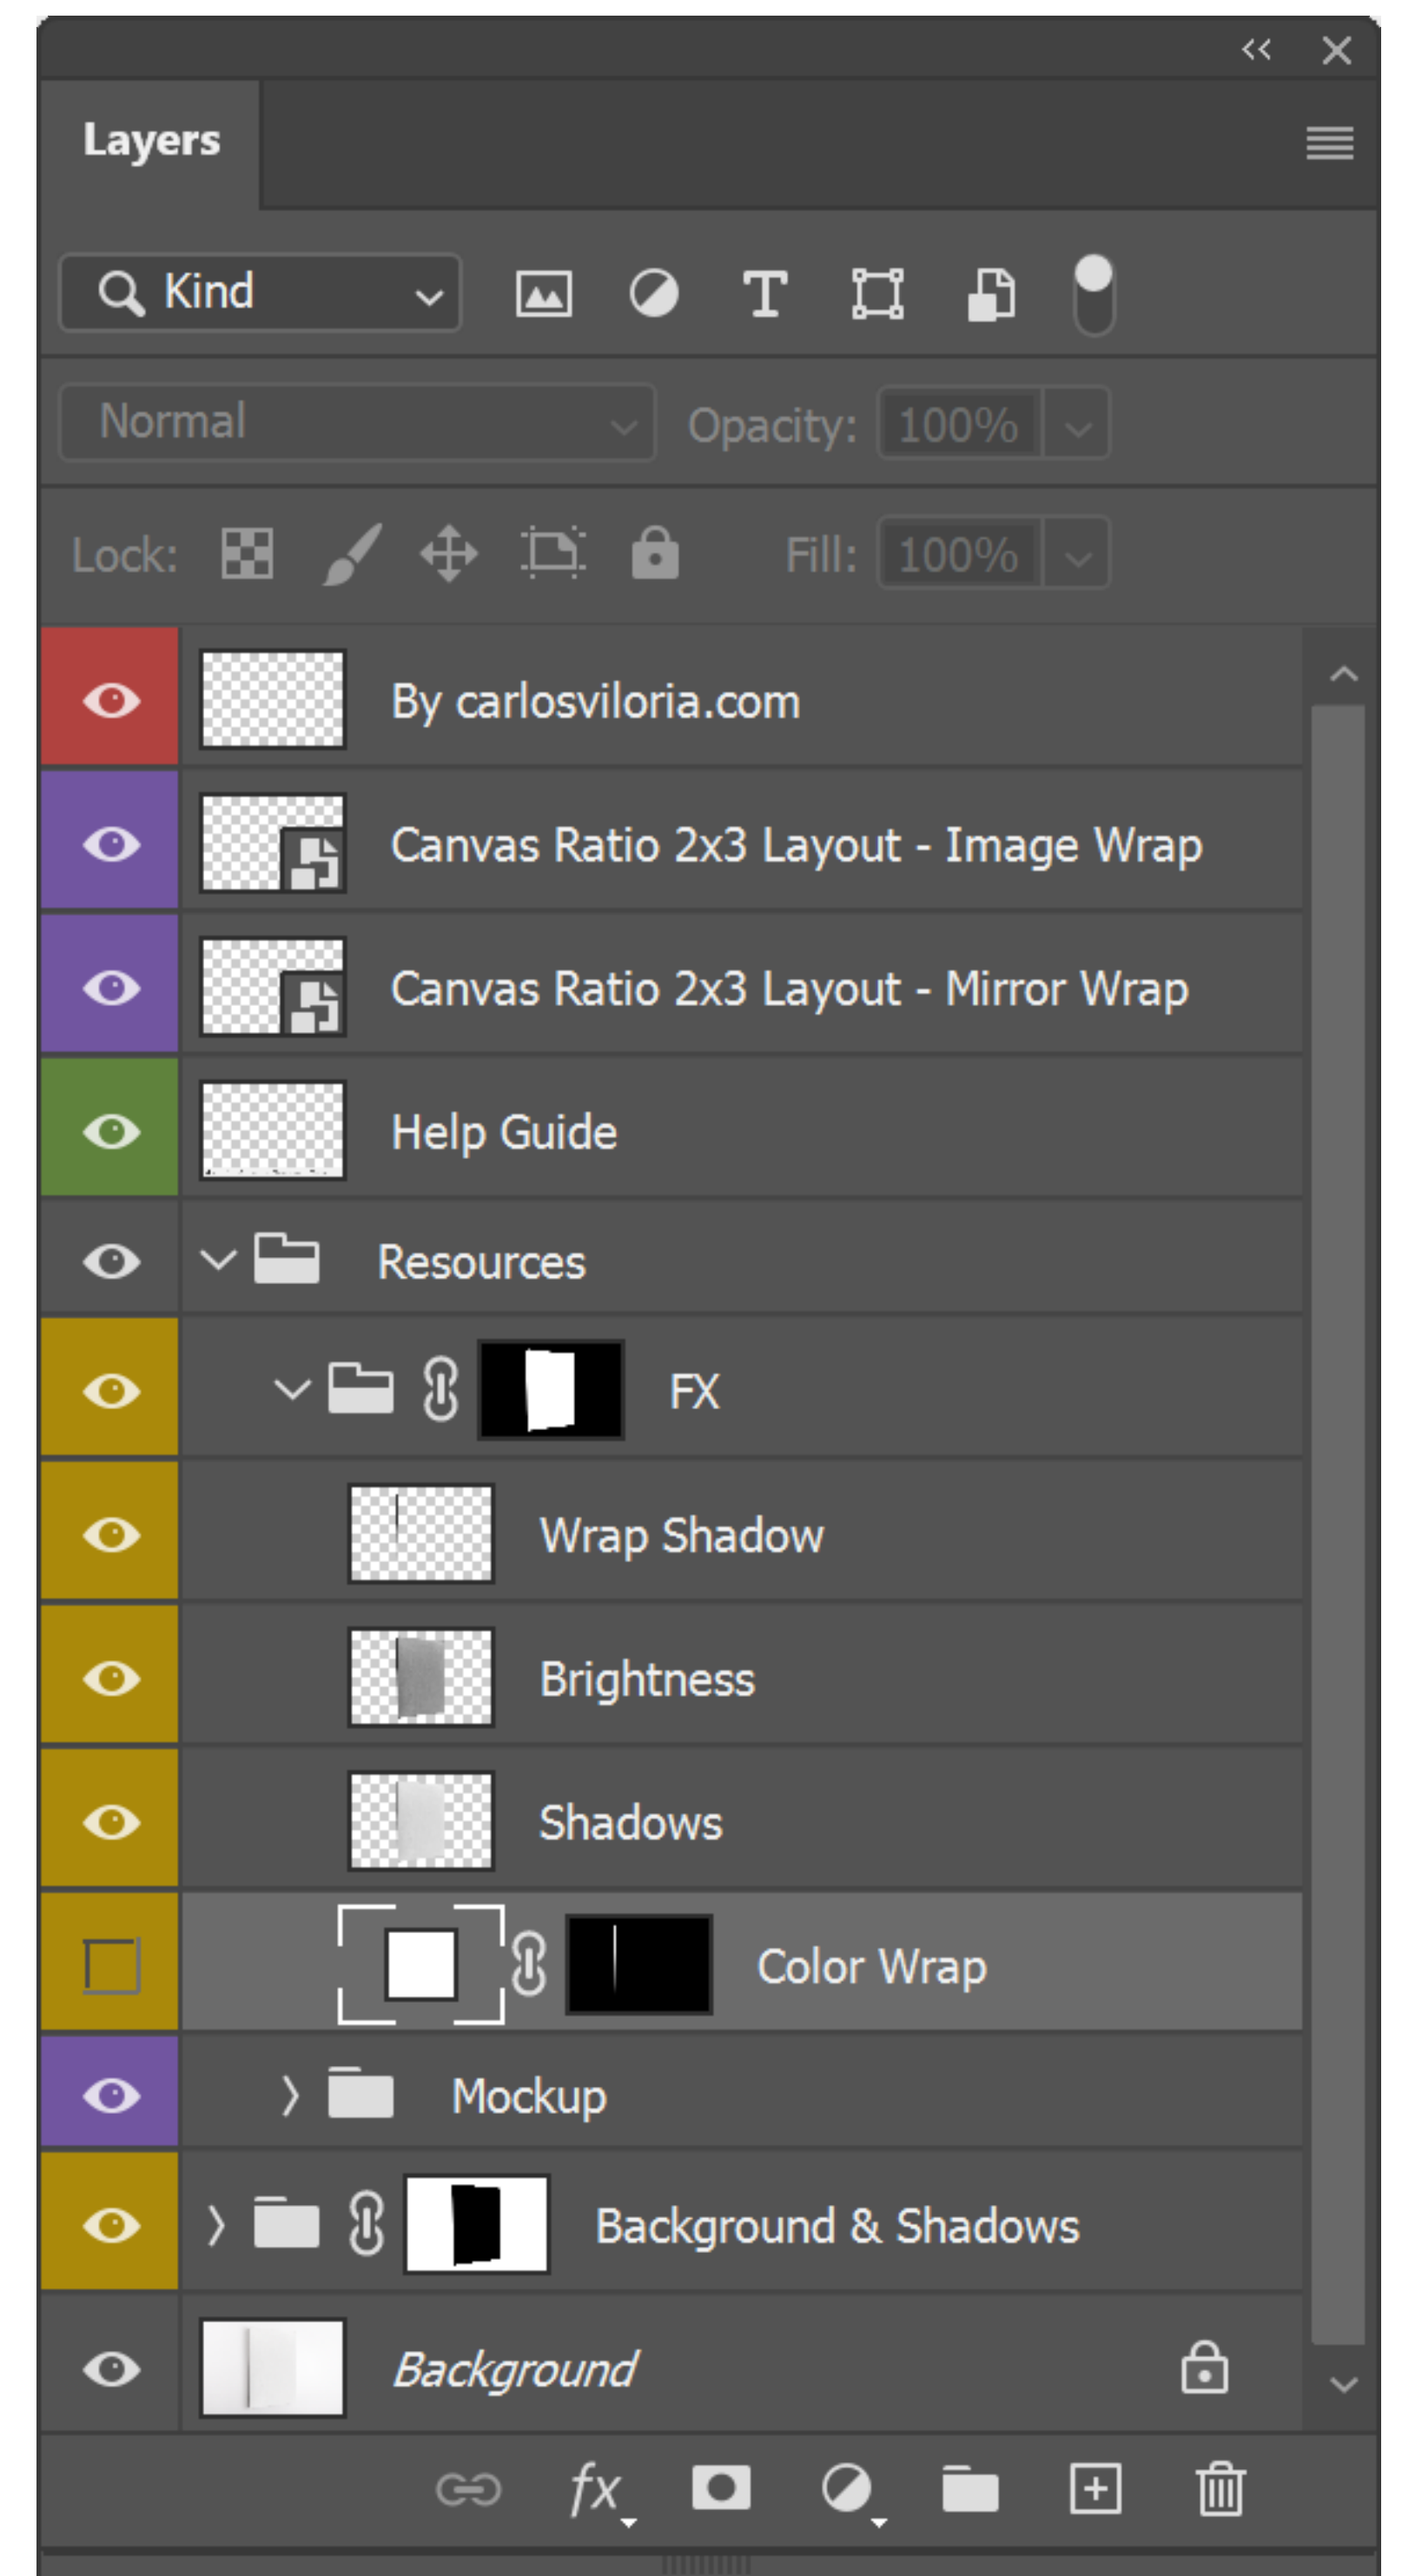

Image Wrap: to get an Image Wrap Effect just place your design inside this smart object.

Mirror Wrap: Locate in the Layer for Mirror Wrap and place your image inside.

Color Wrap: this is easier, just enable this layer and do double click over the color to change it.
