PENCILO

PHOTOSHOP ACTION

GUIDE

1. HOW TO INSTALL

you can install action & brushes by drag them into your photoshop, or install them from the panels.

to show Actions & brushes panels:
For Actions: Window > Actions.
For Brushes: Window > Brushes.
Load the action & patterns from the panels (see the screens).

2. HOW TO USE

Open your photo in your photoshop, Before playing the action make sure your mode color is RGB and channel is 8 bits/channel (Screen 1).

Create a new empty layer and name it "brush" select a soft brush and brush on your area, or select the main object with any select tool and copy it in a new empty layer and name it "brush", you can choose any way just make sure to name it correctly (screen 2) now inside Action Panel open the folder: "Pencilo PS Action" and choose the action "Play Pencilo" and click play button, waite the processing until finish & you done (Scrteen 3).
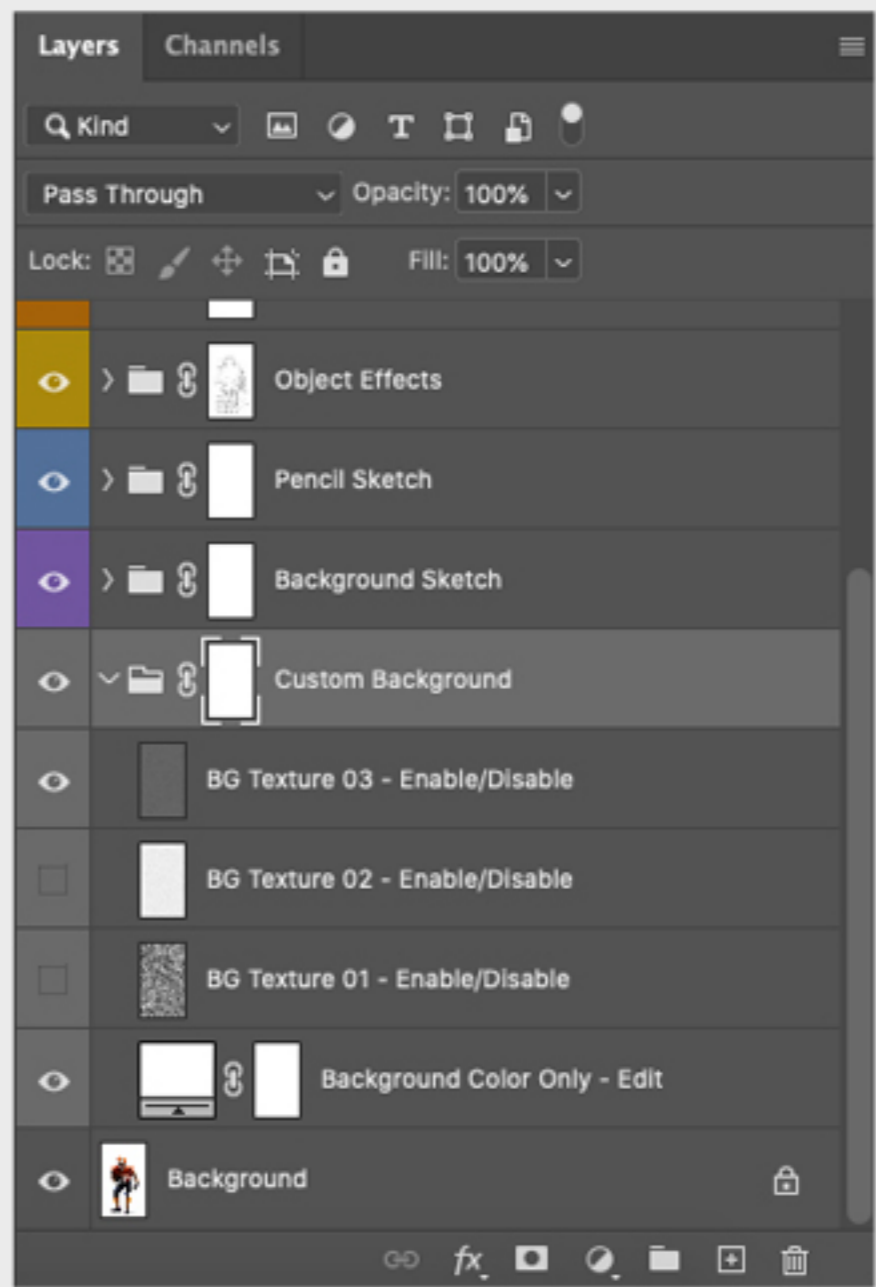

When you see the final message, that's mean the action is done.(1) this process will take 3-5 minutes. now you need edit the effect, first thing you can edit the background color.(2) then you can edit the Sketch effect as you want with masks and brushes.(3) Also you can edit the object pencil sketch with masks and brushes.(4) then you can choose your favorite over backgournd textures you've 3 (Lines - Circles - Nots).(5) Also you can custom the black & white effect with mask and brush.(6) Finaly you can edit the tones correction if you feel the tone image is not correct also you can enable Black & White effect from the same folder.(7) everything in the screens in the right, it's easy to edit.
