

# Info and Quick Guide

## *Rainbow Glow – Photoshop Text and Shape Action*

Photoshop Text Action in high resolution 300 DPI is perfect for any kind of your print work or web design.

### Features:

1. 1 Click Action
2. Layered result
3. Works in Hi-res 300 DPI
4. Great Tool for any Print Template or Web design
5. 1 ATN File, 1 PAT file and 1 ABR file included
6. Test PSD included
7. Works with text and shapes

### How to apply Actions on your own Text:

1. Open your Photoshop and start **New Document (300 DPI)** or open the **test-me.PSD**.
2. Now Choose OPEN from **Menu > File > Open** and open **glow-rainbow-action.atn** (Action File) + **glow-action-pattern.pat** (PAT file) + **glow-action-brushes.abr** (ABR file)
3. You need to do the step above only once. Now use your text tool to write some text (any color).
4. Now hit **Alt+F9** (Mac users Cmd+F9) to open the Actions window.
5. Collapse the **Glow Rainbow Action** folder and select **Play**, then hit the **play button** to apply the action.
6. If You have some troubles with playing the Action, You can contact me for support via my profile - <http://graphicriver.net/user/survivor?ref=survivor>

### How to scale down the text:

1. After the action is done, you can select all of the created folders and then go to menu **Layer > Smart Object > Create Smart Object**.
2. Now you can scale down your text or shape to your needs.

### TIP:

These Actions are made for 300 DPI documents, so if Your effect isn't right, try to scale up the text or scale it down, if the effect is too small for you. You can scale it down after the action is done.

### TIP 2:

You can hide some parts of the effect by hiding its relevant folder, like shadows, dust, etc.
