

# Info and Quick Guide

## *3D Cinematic Effect – Photoshop Text and Shape Action (part 2)*

Photoshop Text Actions in high resolution 300 DPI is perfect for any kind of your print or web design.

### Features:

1. 1 Click Actions
2. 5 Metallic actions
3. Works in Hi-res 300 DPI
4. Great Tool for any Print Template or Web design
5. ATN File, PAT file included
6. Color customizable texture
7. Test PSD included
8. Works with text and shapes

### How to apply Action on your own Text:

1. Open your Photoshop and start a **New Document (300 DPI)** or open the **test-me.PSD**.
2. Now Choose OPEN from **Menu > File > Open** and open **3d-cinematic-effect-2.atn** (Action File) + **cinematic-pattern.pat** (PAT file)
3. You need to do the step above only once. Now use your text tool to write some text (any color).
4. Now hit **Alt+F9** (Mac users Cmd+F9) to open the Actions window.
5. Collapse the **3D Cinematic - 2** folder and choose one of the mettalic actions, then hit the **play button** to apply the action.
6. If You have some troubles with playing the Action, You can contact me for support via my profile - <http://graphicriver.net/user/survivor?ref=survivor>

### How to change color and scale down the text:

1. To change texture color, after the action is done, collapse the created **3D Cinematic 2** folder and you will find **Texture Color** layer. Double click on the thumbnail and change color.
2. To scale down the text, after the action is done, you can select the created folder and then go to menu **Layer > Smart Object > Create Smart Object**.
3. Now you can scale down your text or shape to your needs.

### TIP:

This Action is made for 300 DPI documents, so if Your effect isn't right, try to scale up the text or scale it down if the effect is too small for you. You can scale it down after the action is done.

### TIP 2:

You can play the action for multiple objects at once – group the layers with your objects and then play the action while the group is selected.
