Edit your menu

Open any PSD file, in each of them all the layers are grouped and named accordingly.

You Can edit all colors easily. To edit background colors go to "background" folder. You will find "background_texture" layer and "color_edit" layer above (this layer have orange color). Just double click this layer and choose your color. To edit photos find layer named "photo_edit" and double click this layer, in newly opened document put your photo and then close this document approving changes - your photo is added.

TRY YOUR SKILLS AND MIX THE ELEMENTS, YOU CAN GET A LOT OF COMBINATIONS.
