

# How to Play This Action?

## 1. How to load action?

Open your photoshop then go to top menu bar and click on **Window** menu. Now open a dropdown menu then click on **actions** and you will see a pop-up box. like below image

Now go to action pop-up side menu option and **Load action** from download folder. Follow below image -

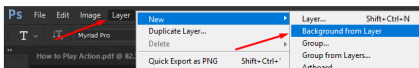

## 2. How to convert Layer to Background Layer?

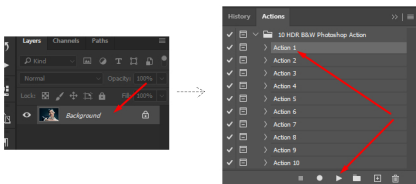

Now convert Background Layer

Go to top menu and click on **Layer** menu. Then click on **New** & click on **Layer from Background**

3. Now open a background image and Hit play button. Then action work automatically. And when work will be complete you will get a awsom effect.
