

## KNITTED HAT MOCK-UP

Set includes 3 PSD Files / Fully Layered  
2000x2000 resolution (6.6x6.6 inches 300dpi HiQ print)

### GENERAL INSTRUCTIONS

Usage is very simple. Open the psd file, you will find a group of layers (duly named).  
Layers for editing are located on top, named properly and marking red color

**STEP 1** Double click on layer «pom-pom color edit» (marking layer red)

**STEP 2** Paste your design image  
(make sure that your image was in the visible region)

**STEP 3** Save the layer (smart object)

Repeat these steps for every smart object. (marking red layers)  
«lapel design edit» «inside color edit» «bulk sticker design edit»  
«cap body design edit»

### DETAILED INSTRUCTIONS FOR WORKING WITH SMART OBJECTS

You can adjust the effect of light, shadow, ambient occlusion and reflects changing to appropriate transparency layers - «reflect / light / light over / shadow». You can put the objects on any background, to use it in their presentations and design. Change the size, mirror, dream, add others add your own text to create colorful and fun work.

I hope that this will make the job easier.
