https://youtu.be/c9n0sR_S1hI

This action has been tested and working on Photoshop (**any language, PC/MAC**) CS4, CS5, CS6, CC, CC 2014, CC 2015, CC 2017, CC 2018, CC 2019, CC 2020 +.
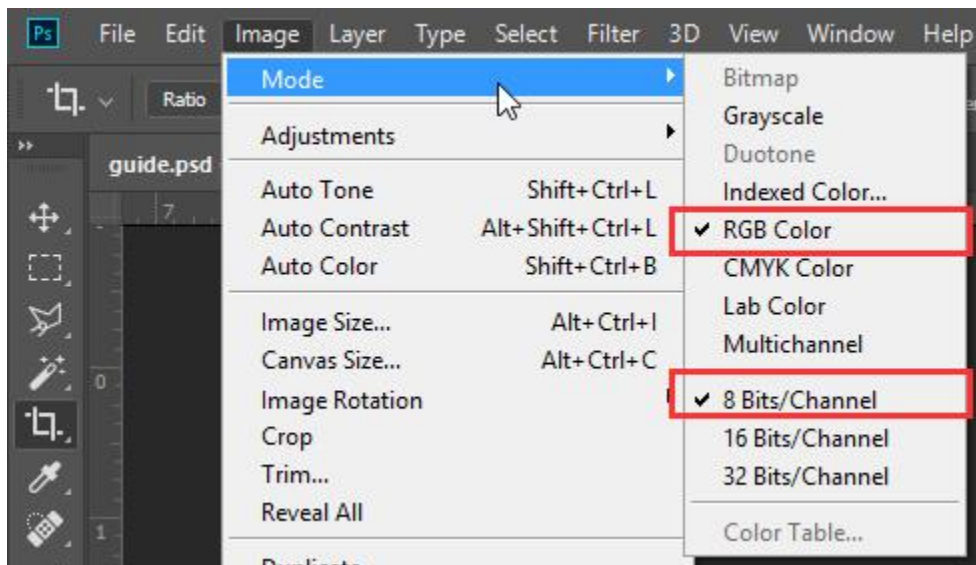

How to Setup

Below are the important pre-requisites according to which the Photoshop document needs to be set for the add-on to work correctly.
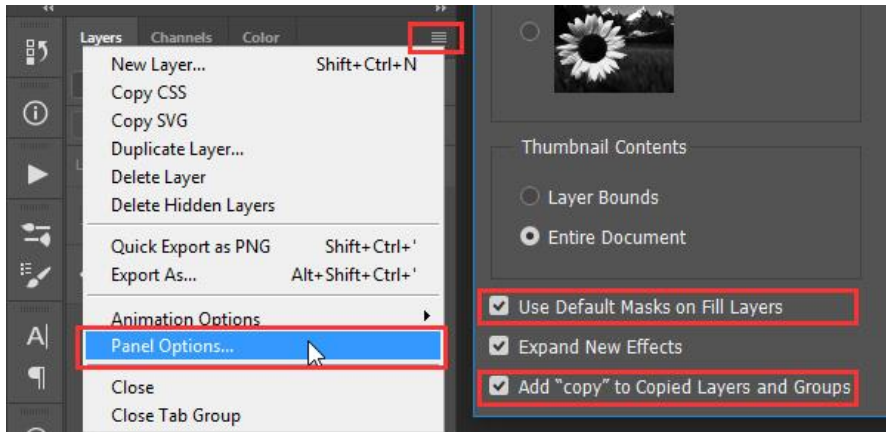

> **IMPORTANT - PLEASE CHECK**

1. Your photo is in *RGB* color mode.

2. Your photo is in *8 Bits/Channel* color mode.

3. On the *Layers* panel, click on the menu icon on the top-right corner. Go to *Panel Options...*, and make sure that the *Use Default Masks on Fill Layers* and *Add "copy" to Copied Layers and Groups* are checked.

   This option applies only to CS5 and later versions of Photoshop.

If you are experiencing errors, try resetting your Photoshop preferences. To do this, hold down **Alt, Ctrl, and Shift keys (for Windows) or Command, Option and Shift keys (for Mac)** while starting up Photoshop. A dialog box will appear asking if you wish to delete the preferences/settings file.

How to **Install**

In the below steps we will be installing the main files of the add-on into Photoshop.
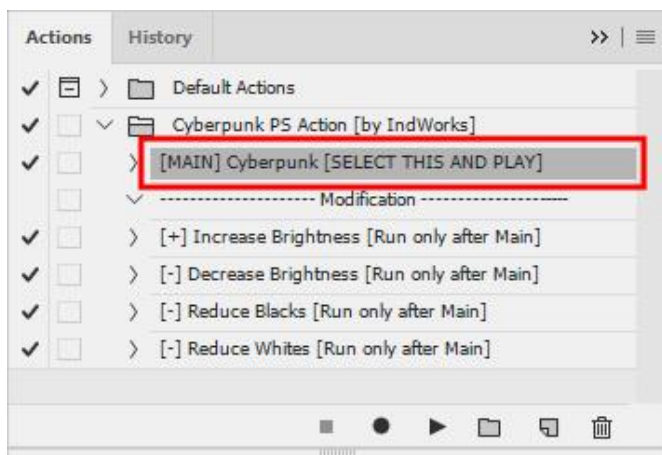

INSTALL ACTION

1. Inside Photoshop, go to the **File > Open...**.

2. Inside the Open window, navigate to the main **Cyberpunk Photoshop Action** folder which you downloaded.

3. Select the **"Cyberpunk PS Action.atn"** file.

4. Click **Open** to load the file in **Photoshop**.
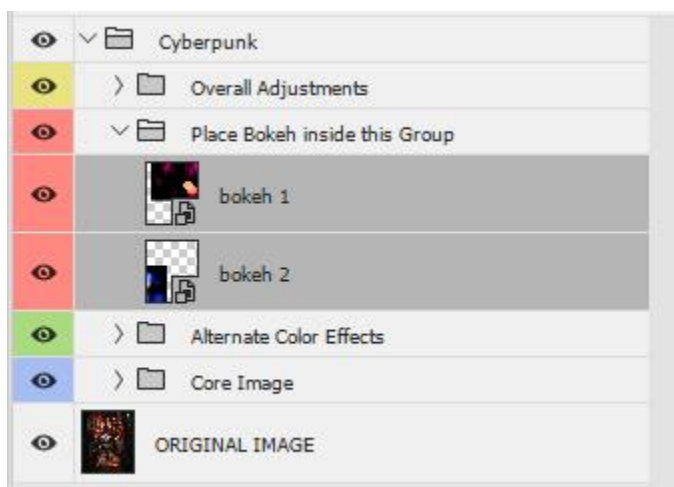

Play the **Action**

1. **Open** a photo to work with.

2. Bring up the Actions panel by going to **Window > Actions**.

3. Now select the **MAIN Cyberpunk Action** and click **play**.

4. After the main action is applied, you can run **additional modification actions**.

Please refer to the video tutorial if you need assistance with these steps.

5. You can add additional Bokeh overlays inside **"Place Bokeh inside this Group"**.
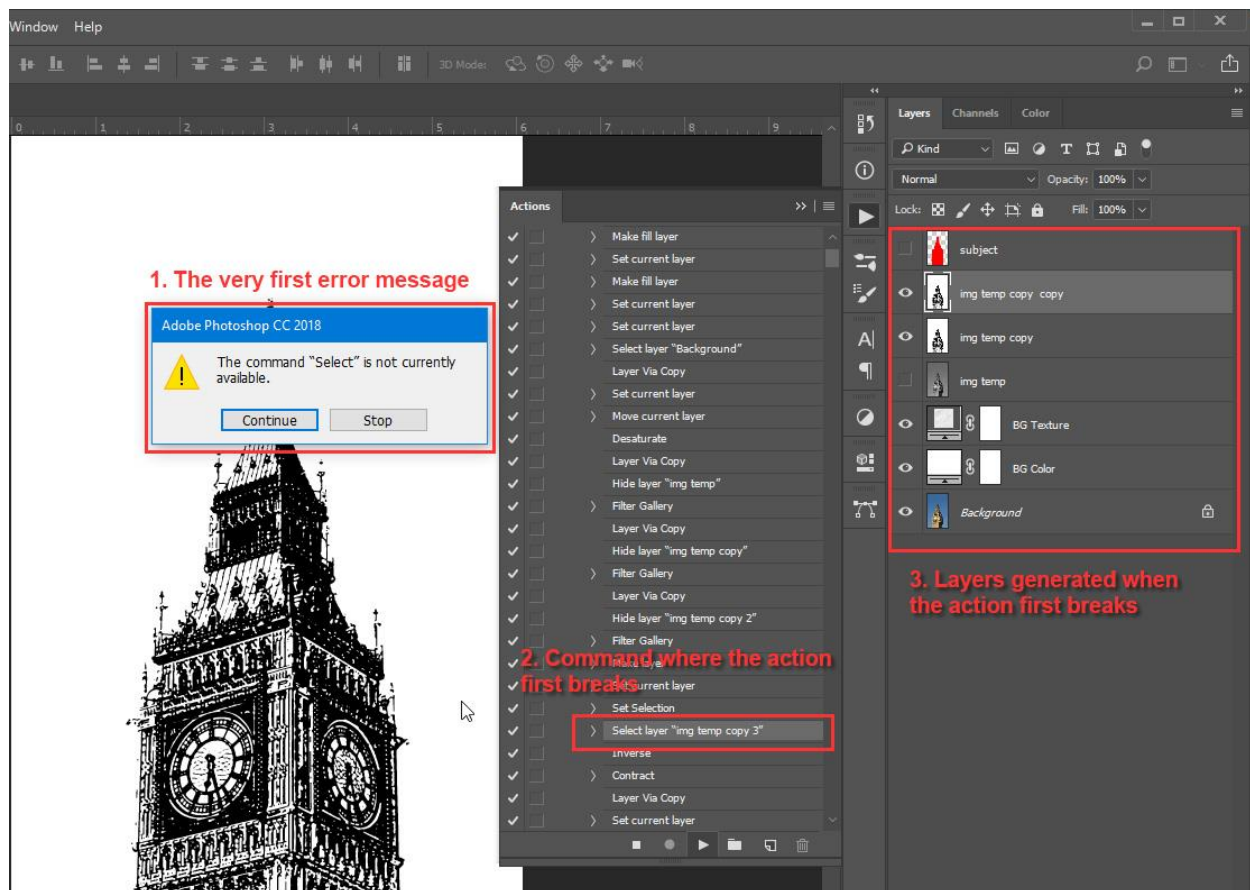

Facing any Issues

If you need any help with the action, please **comment on the item page** or send an **email from the profile page** here.

If you are getting any error messages, please email the error screenshots with the below details in the snap-

1. The **very first error** message that pops up
2. The **command** (expand the action) where the action **first breaks**
3. **Layers generated** in the Layers panel till the action breaks

Will be happy to help you.
Thank you for your support.
