. ATTENTION

For **Frozen Ice Style**, it is not good for white objects, it is recommended to change the object color other than white on the edit here layer, in this template we use the color code for Frozen Ice Style Effect: #3095ca :)

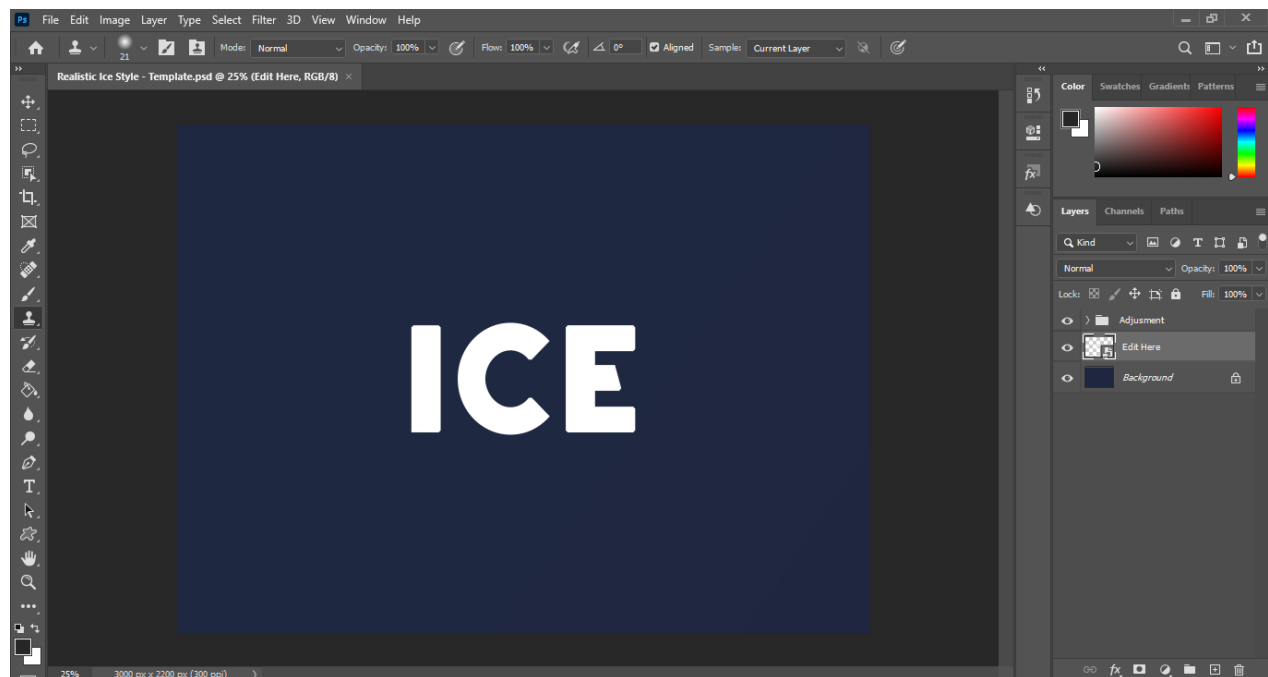

. INSTALLATION - Base introduction

Open Photoshop, Drag and Drop the 3 Preset files (**Actions, Styles, Pattern**) inside the program, it's quick and easy.

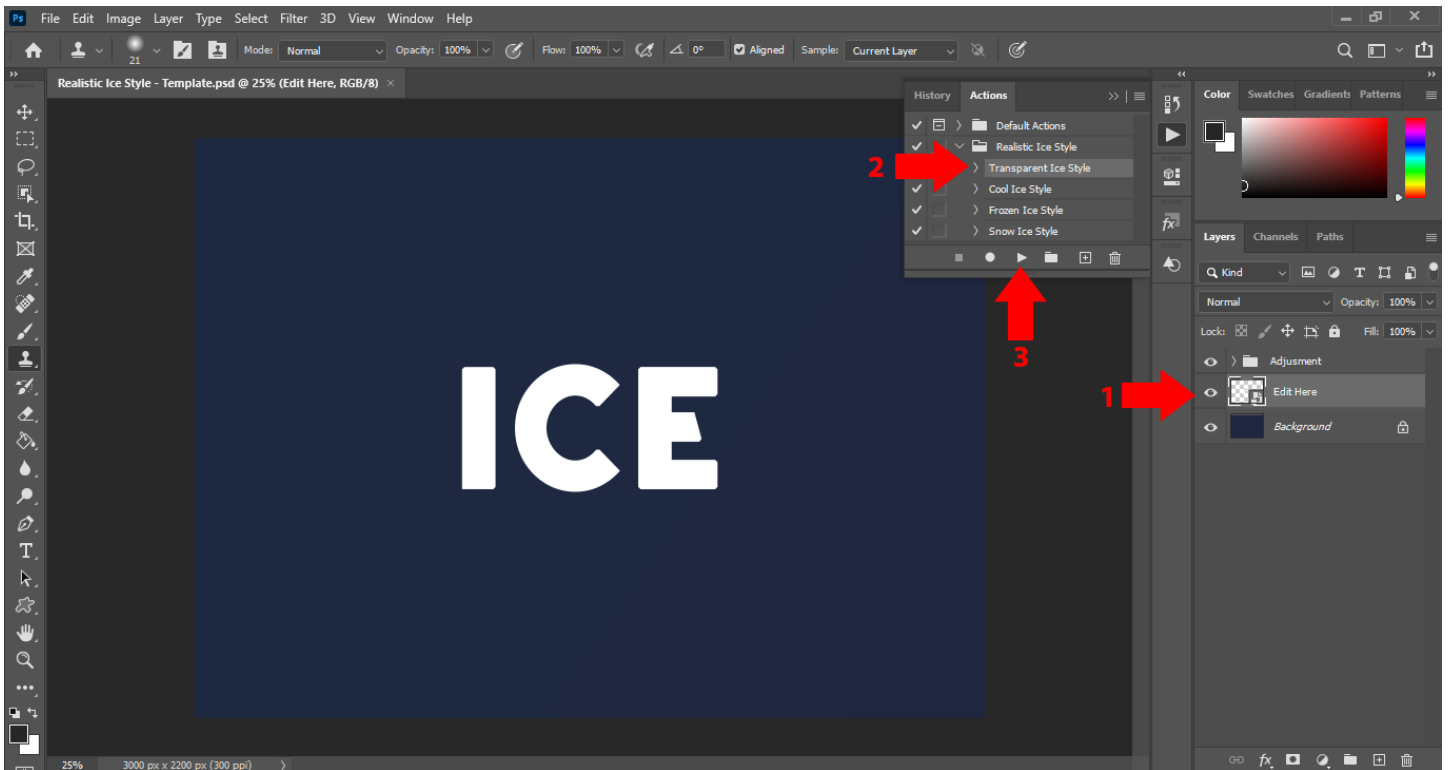

. TEMPLATE FILE - Base introduction

Open the Template File it's a 3000x2200 pixels at 300 dpi, the preset works nicely with this resolution, it's suitable for print and if you need lower resolutions, simply reduce the size in the image size setting

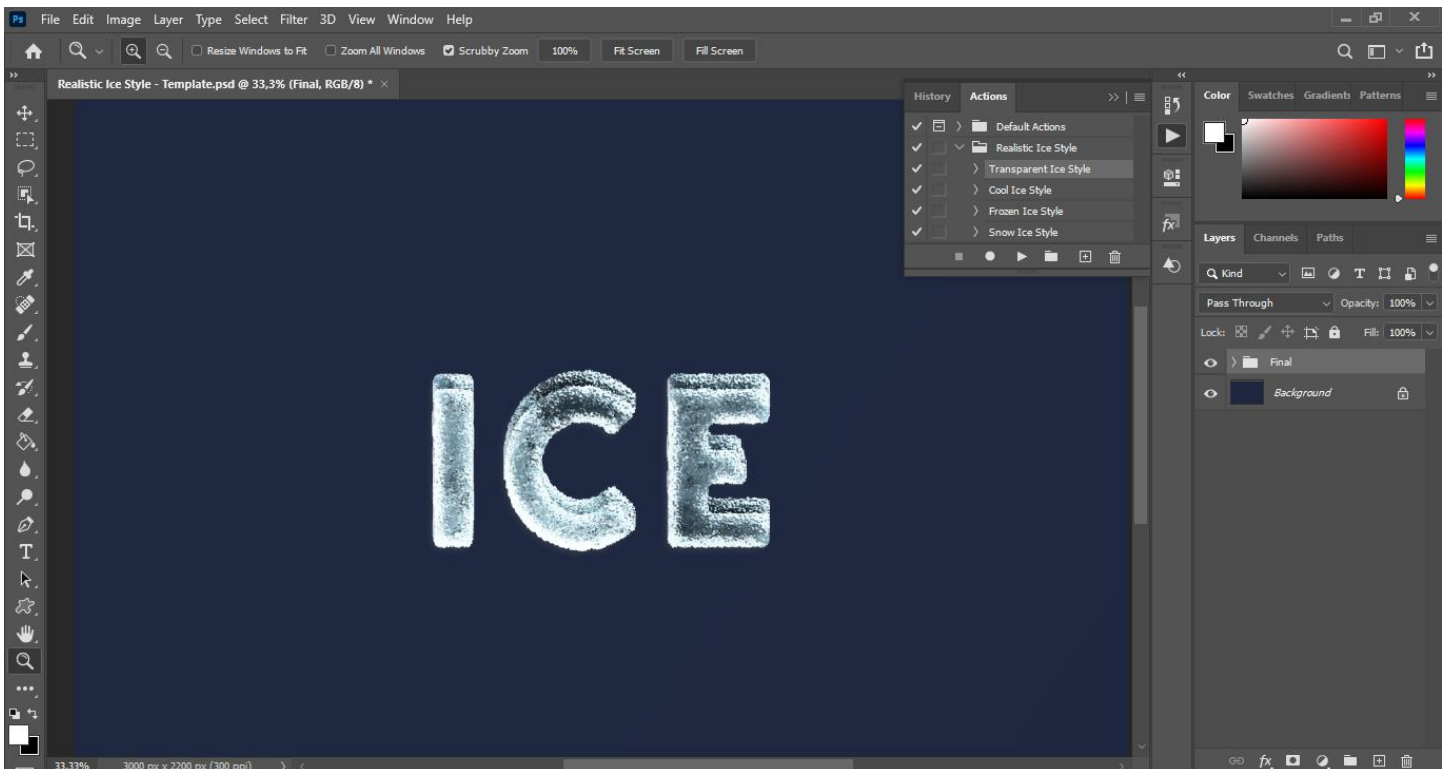

3. PLAY THE ACTION - Base introduction

Select the Edit Here layer, open the Actions panel, choose the preferred Action and click Play. In few second the action will draw Ice layers, apply styles. Everything is packed in a Smart Object, and the starting layer is untouched and hided.

After a few seconds, the Photoshop action has been applied, and it's finished

. Layers Organization

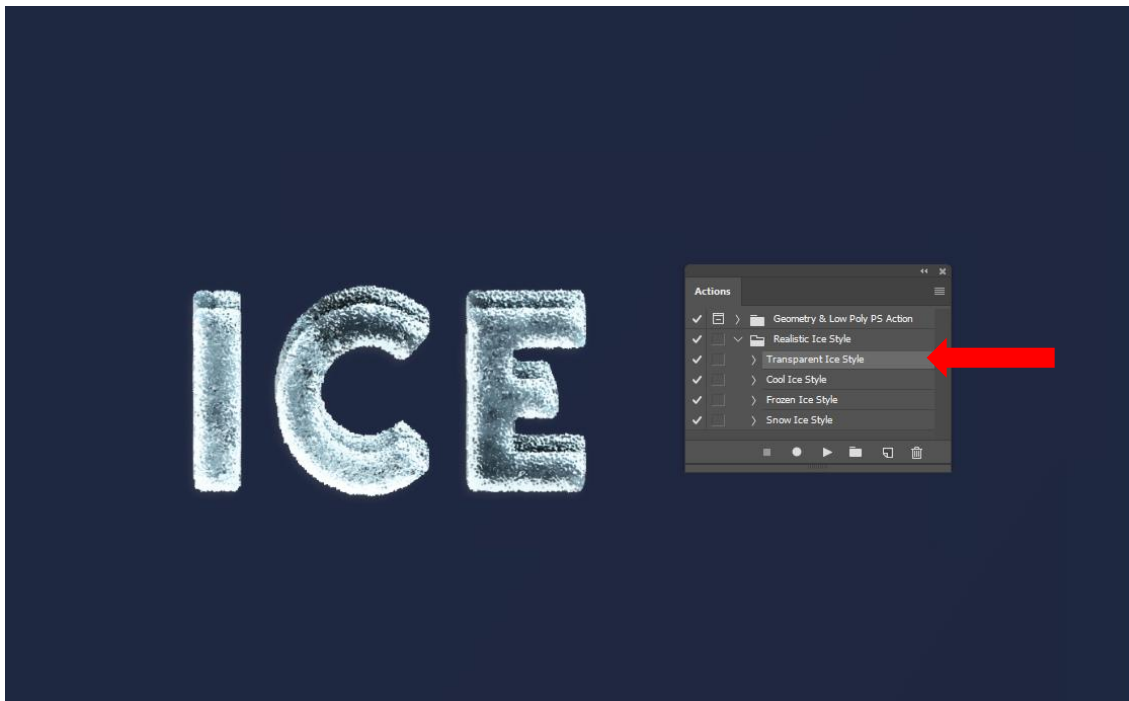

Adjusment

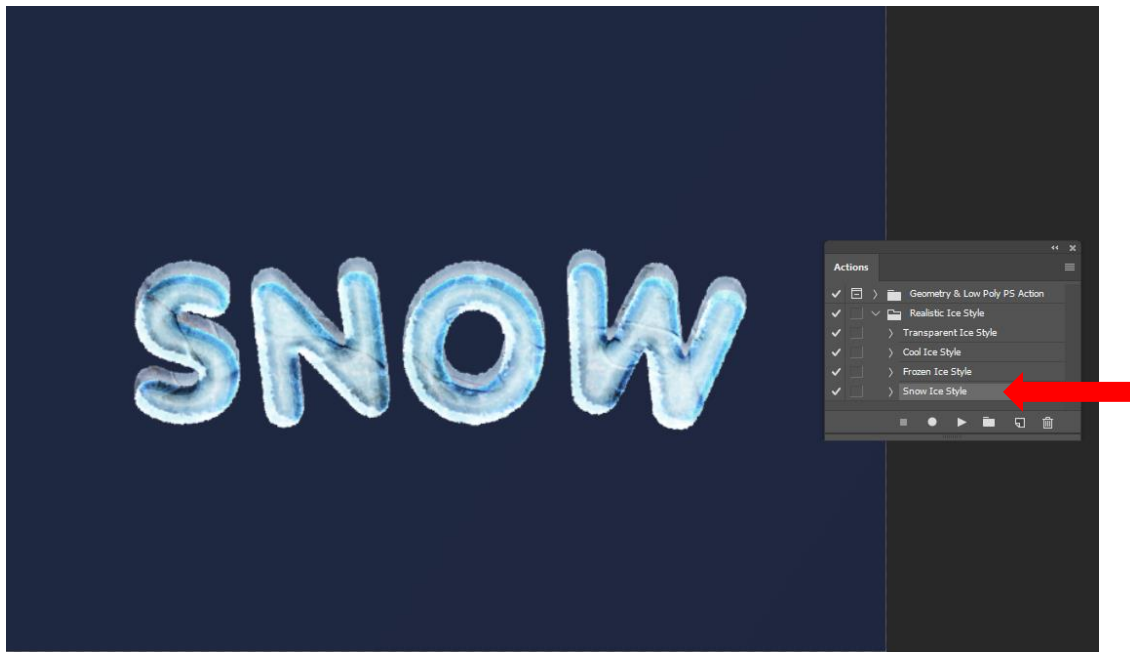

This layer is used to provide lighting settings for the template file, click on the layer "level 1 layer" to set it

Edit Here (Smart Object Layer)

Double click the Smart Object, it will open in a second Tab, here you can find the layer use

Action Information

. ADDITIONAL INFORMATION

If the Fill action gets stuck, (for example with a message like "**Command \"*****\" not available**"),

* when the message appears you can click continue and let the action finish,
