Windows &Mac

How to install Photoshop actions for windows

1) After downloading the necessary actions to your laptop, open Photoshop CC and activate Actions window. Another way to do it is by pressing **Alt + F9**.
2) Now, when you can see the Action window, click on the menu in the form of several bars at the top right corner of this window and select Load Actions.
3) After selecting the folder with the necessary Actions, single them out and click Load.

How to install Photoshop actions for mac

1) Mostly, at startup, you won't find the Actions window, as it must be activated.
2) You can do this by pressing key combination **Alt + F9**, or going to the Window tab – Actions.
3) When the Actions tab is already available, you can start installing the .ATN files.
4) Click the button with four bars and go to Load Actions.
