

THE BUSINESS BASICS

Blissful Pixels Templates for Canva

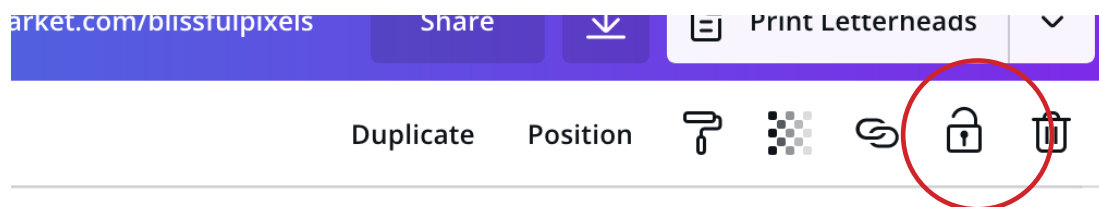

A few quick tips for using your new template

SAVE A COPY

Your template is shared as a template and you don't have to worry about making a copy like you used to, however as a best practice it's still a good idea to make a copy prior to beginning work.

LOCKED ITEMS?

Some of the elements in your Canva template may be locked to prevent them being moved around. In order to move or edit the colors/images of these locked elements, simply unlock it! The lock icon is in your options bar above the template and you can unlock/lock items on your page with a single click!

WATERMARKED ITEMS?

Some of the elements in your Canva template may be watermarked by Canva, as these are pro items. Just swap these items out (usually stock images) for your own images, or upgrade to Pro if you wish to use these images.
