

ADOBE LIGHTROOM PRESET INSTALLATION GUIDE

1. Unzip the preset Zip file on your desktop.

2. In Lightroom, select: Lightroom → Preferences → Presets → Show Lightroom Presets Folder

3. Copy the preset folder to your 'Develop Presets' folder:

MAC OSX: /Library/Application Support/Adobe/Lightroom/Develop Presets

WIN XP: C:\Documents and Settings\Application Data\Adobe Lightroom\Develop Presets

WIN VISTA & WIN 7: /AppData/Roaming/Adobe/Lightroom/Develop Presets

4. Copy the blog template folder to your 'Print Templates' folder. If you do not have a 'Print Templates' folder, please create one and continue installation from there.

MAC OSX: /Library/Application Support/Adobe/Lightroom/Print Templates

WINDOWS XP: C:\Documents and Settings\Application Data\Adobe Lightroom\Print Templates

WINDOWS VISTA & WIN 7: /AppData/Roaming/Adobe/Lightroom/Print Templates

5. Restart Lightroom.
