

HOW TO INSTALL THE PANEL

Manual installation

Unzip the archive Universal-Retouch1.0.0.zxp with any archive manager.

Copy the folder "Universal" on following path:

WIN OS:

C:\Program Files (x86)\Common Files\Adobe\CEP\extensions\

MAC OS:

Go to menu Go -> Go to Folder:

~/Library/Application Support/Adobe/CEP/extensions

*In case the CEP/extensions folder does not exist, feel free to create it.

In this case in MAC OS you should Go -> Go to Folder: ~/Library/Application Support/Adobe/ and create folders manually. In Windows similarly by windows Explorer way.

In Photoshop go to Window -> Extensions -> Universal Retouch

Installation by Extension Manager

Download any extension manager you like:

1. [Adobe Extension Manager](#)
2. [Anastasiy's Extension Manager](#)
3. [ZXP Installer](#)

Go to menu 'File - Install Extension'

Open Universal-RetouchX.X.X.zxp file in the pop window and wait for the installation to finish

*If you choose ZXP installer, drag and drop ZXP file of panel into ZXP Installer

If you need any help with the panel, please email me willatutorial@gmail.com

Thank you for your support.
