

# 1 Face

Select the 'face' brush of your choice and tap to place the face.

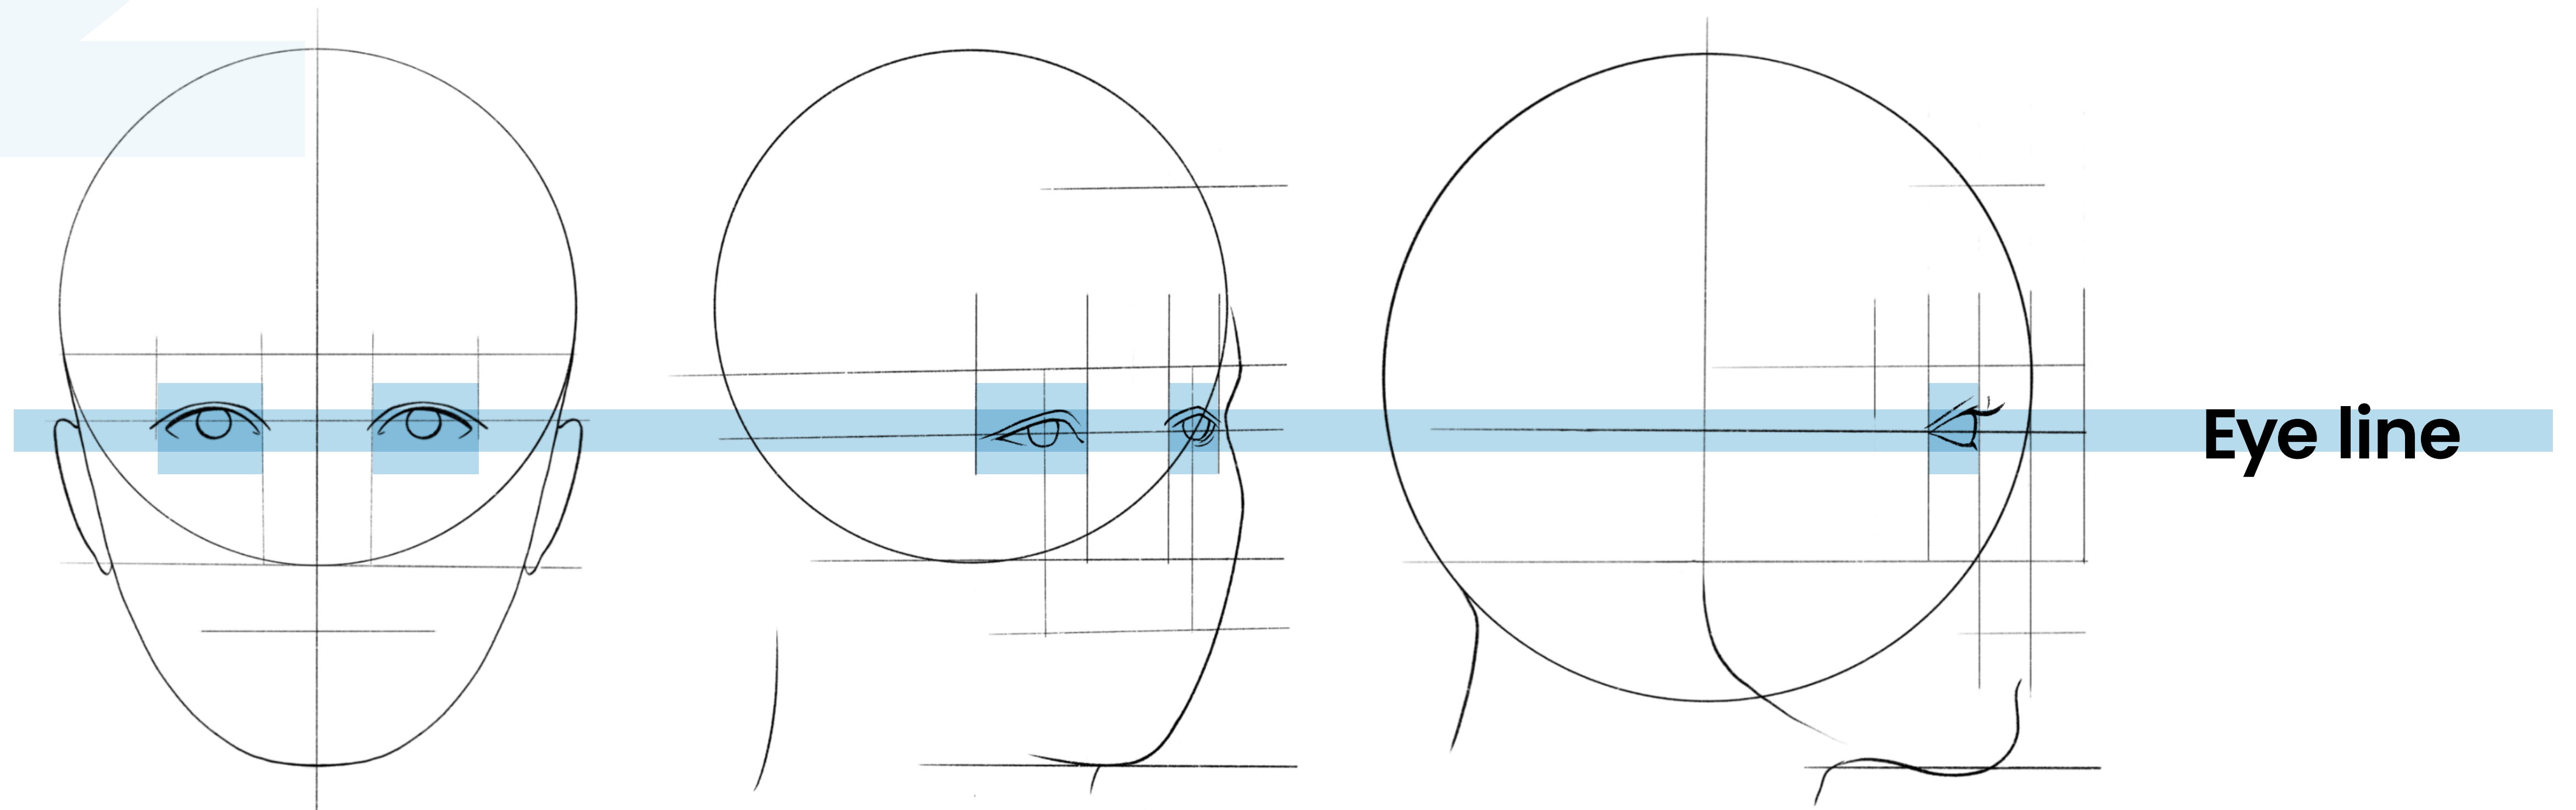

## PRO TIP

To make sure your canvas is straight, quickly pinch two fingers together, then release. This should automatically straighten up your canvas and make it fit perfectly in the screen :)

# Eyes

Select the 'eyes' brush of your choice and, on a new layer, tap to place the eyes.

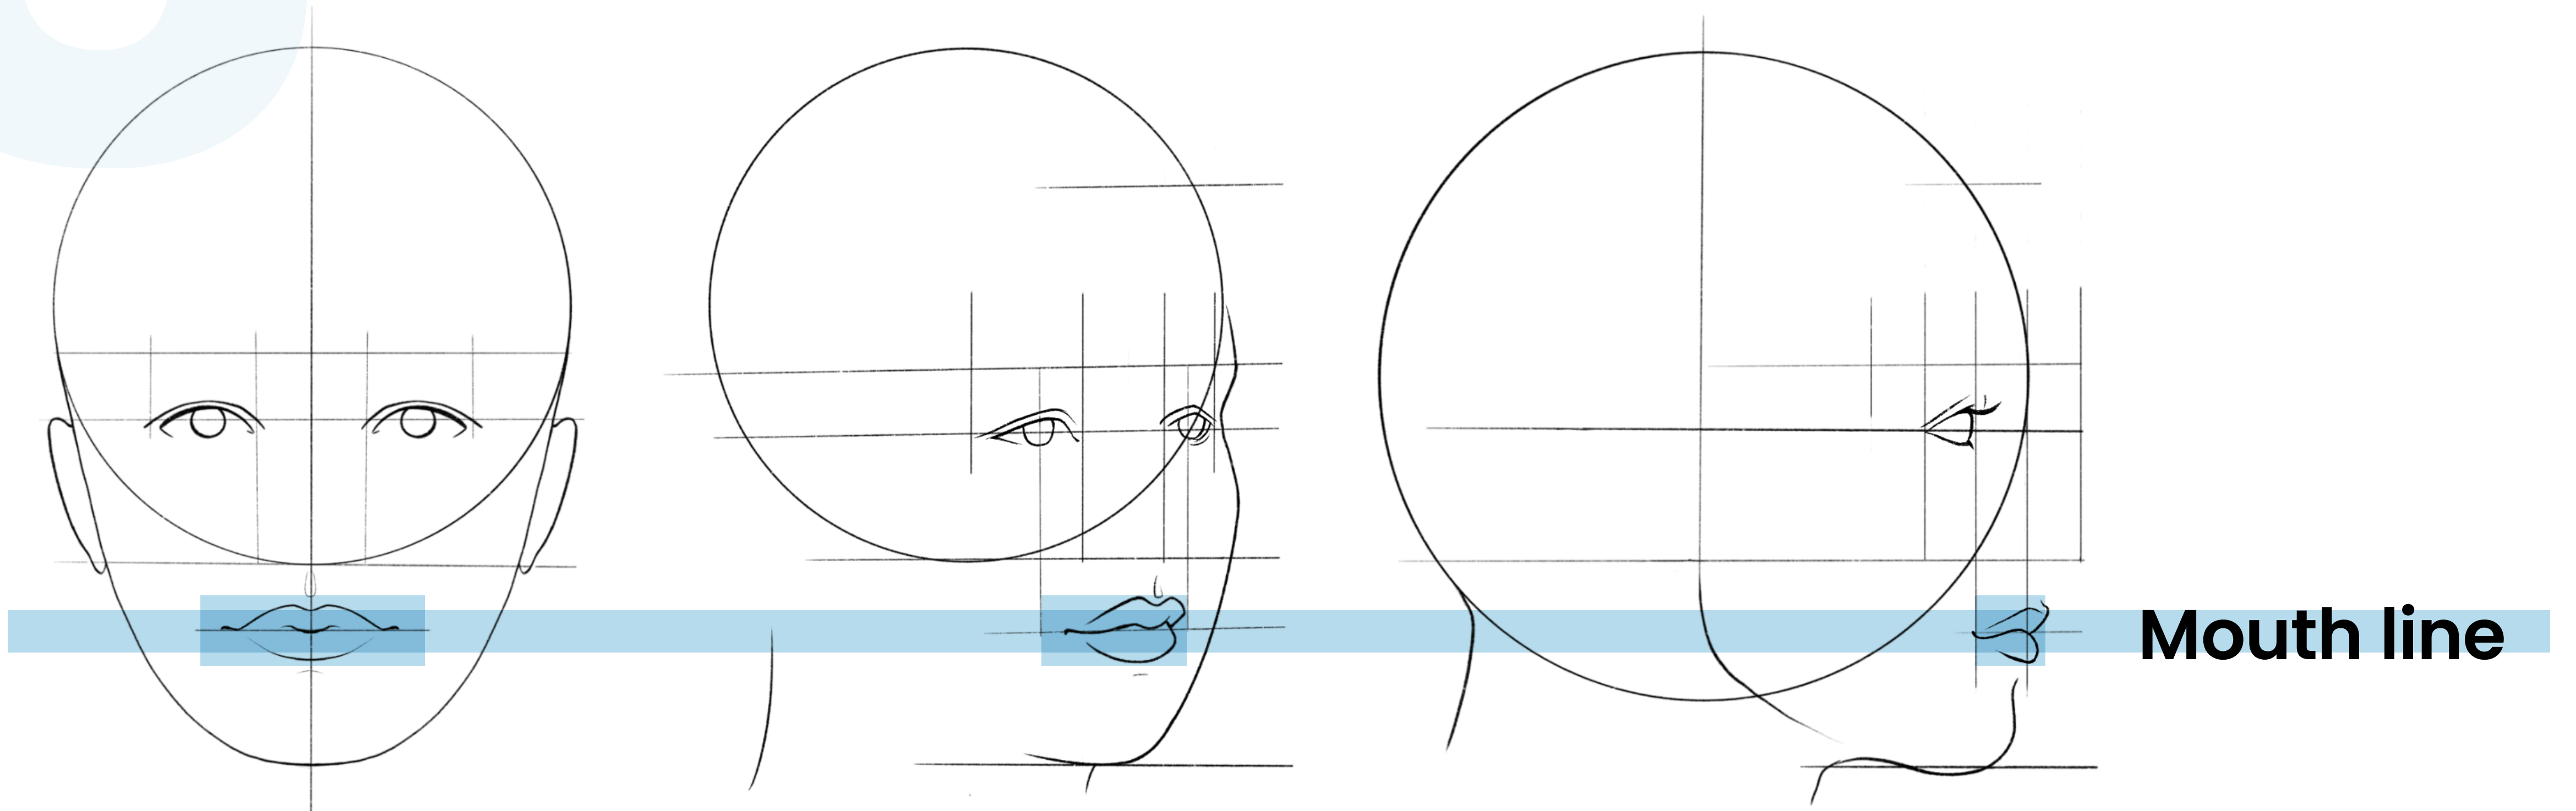

Use the selection tool  to resize and move around as needed to roughly fit in the guides.

# Mouth

Select the 'lips' brush of your choice and, on a new layer, tap to place the mouth.

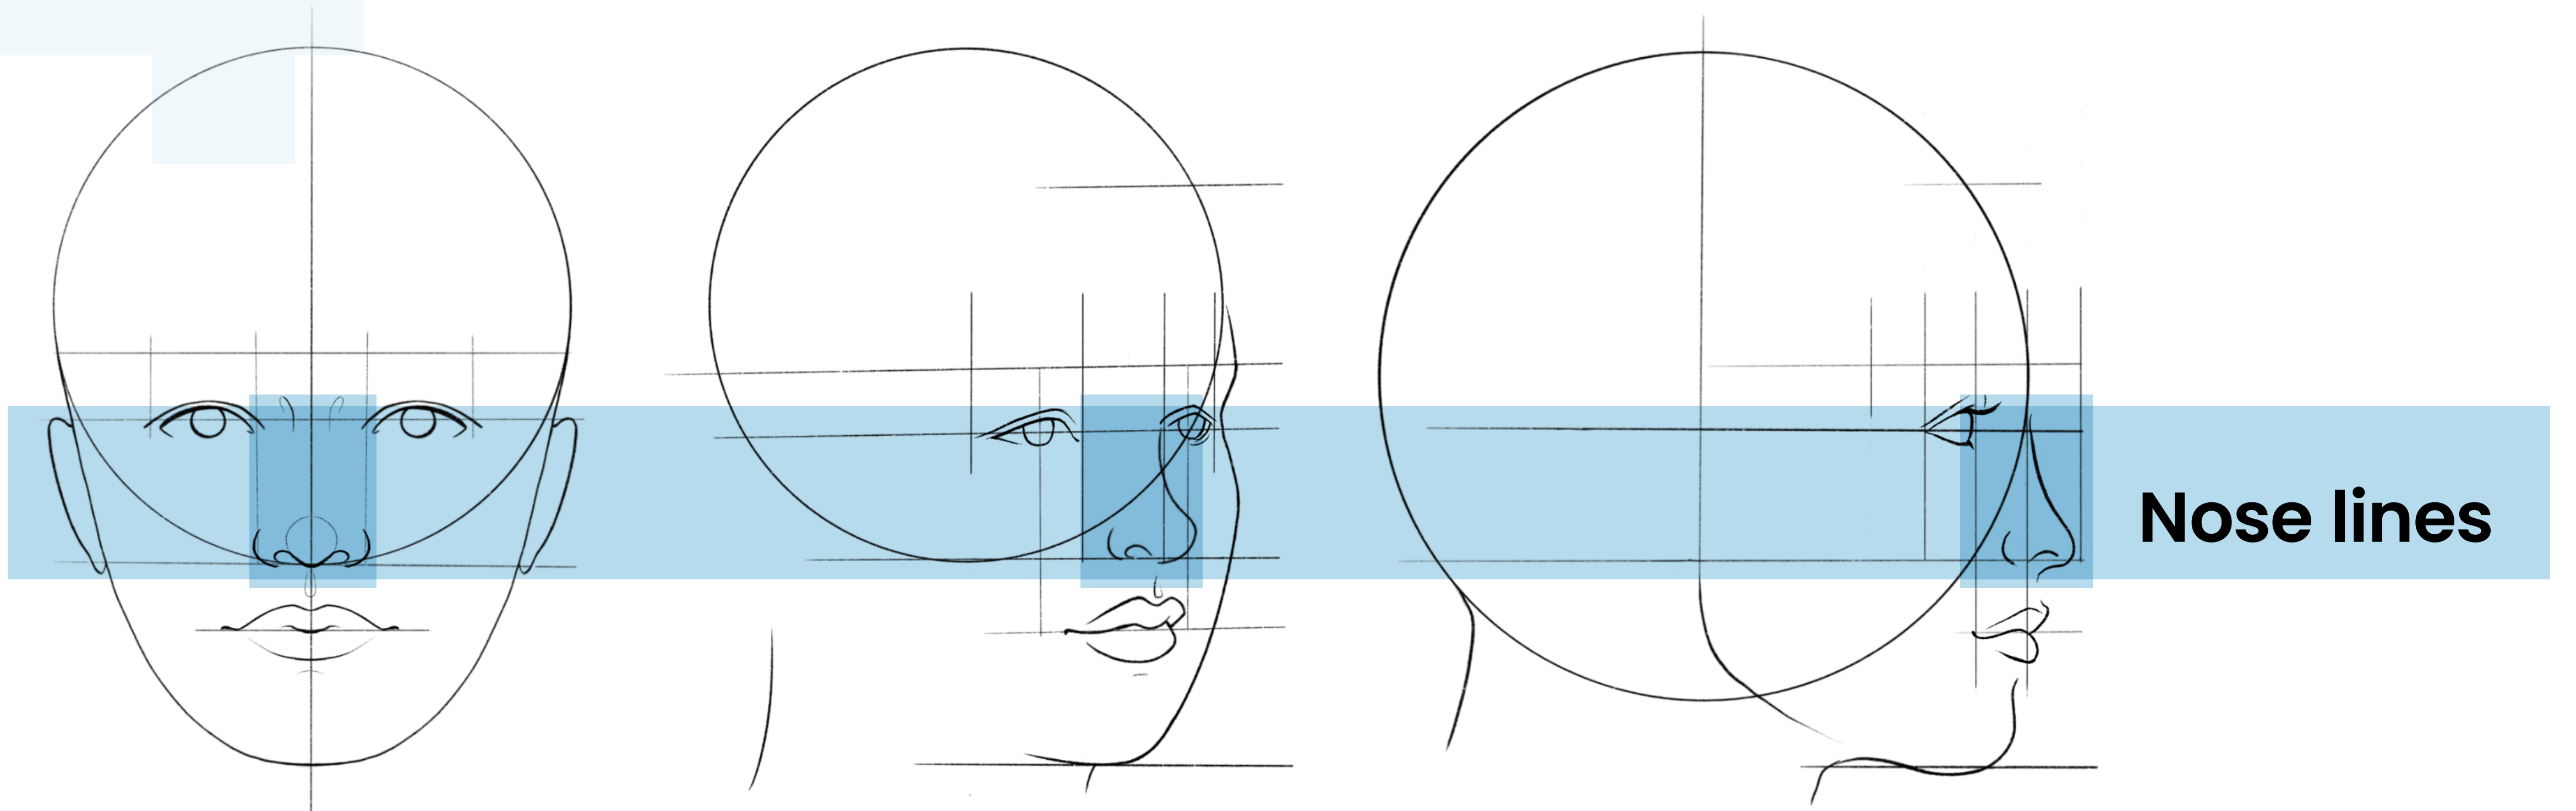

Use the selection tool  to resize and move around as needed to roughly fit in the guides.

# Nose

Select the 'nose' brush of your choice and, on a new layer, tap to place the nose.

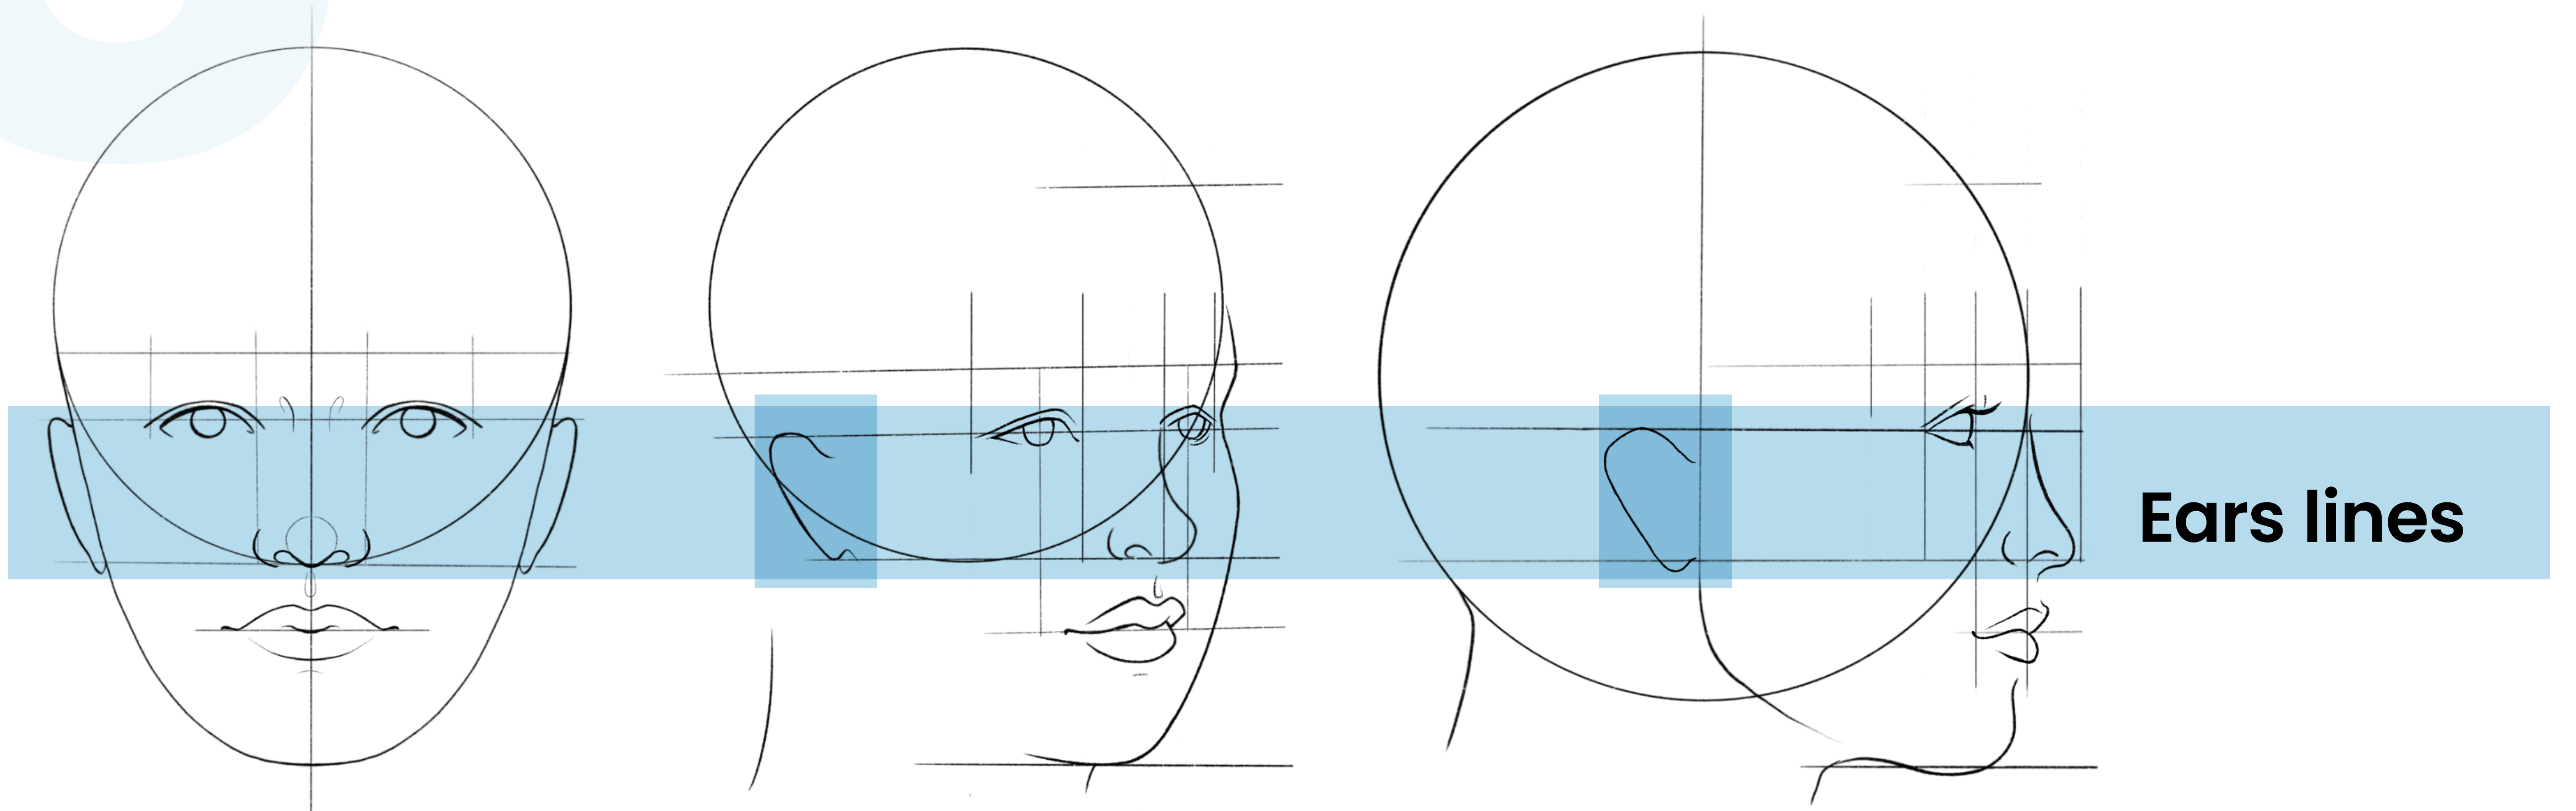

Use the selection tool  to resize and move around as needed to roughly fit in the guides.

# Ears

Select the 'ears' brush of your choice and, on a new layer, tap to place the ear(s).

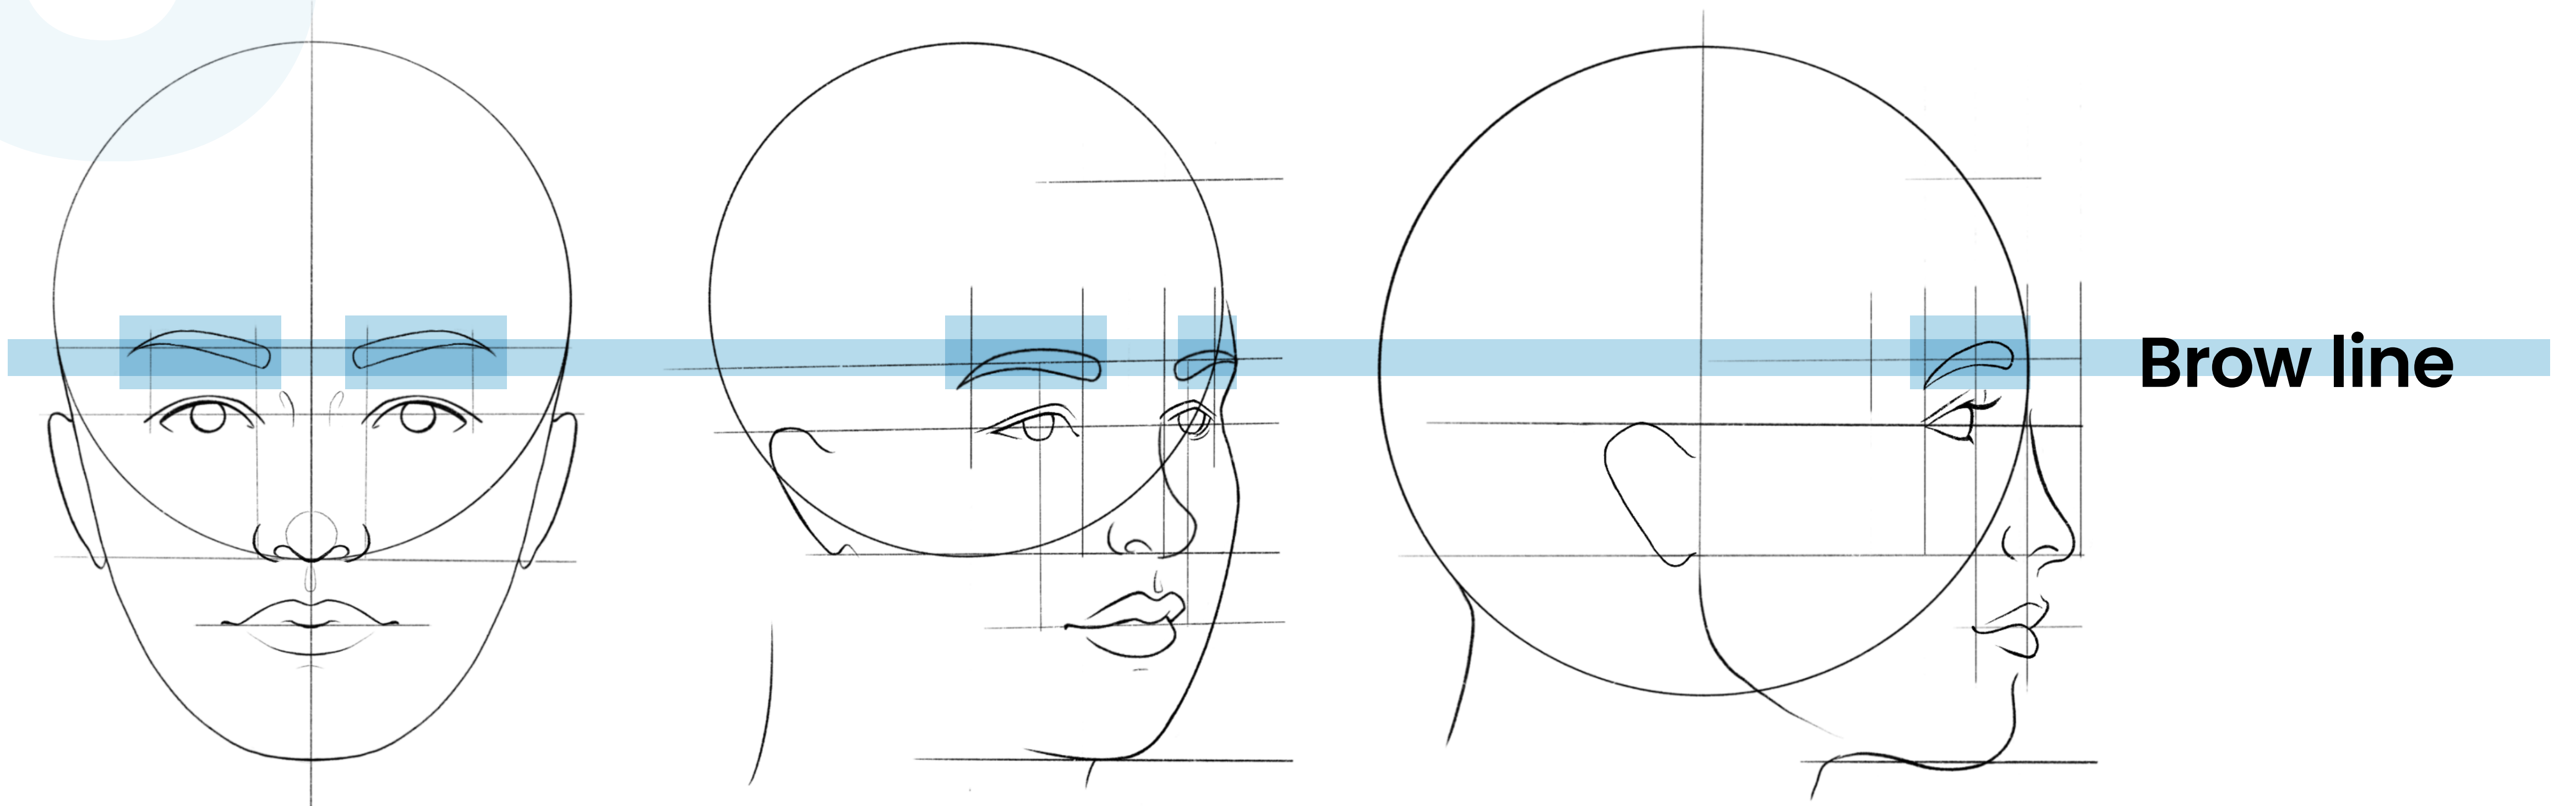

Use the selection tool  to resize and move around as needed to roughly fit in the guides.

# Brows

Select the 'eyebrows' brush of your choice and, on a new layer, tap to place the eyebrows.

Use the selection tool  to resize and move around as needed to roughly fit in the guides.
