

## LIGHTROOM PRESETS MOBILE INSTALLATION INSTRUCTIONS

### STEP BY STEP GUIDE

1. Mobile presets are designed for the free **mobile app Lightroom CC**  
- it doesn't require subscription and it's totally free to use. The mobile presets will only work on your phone, not desktop. not desktop.
2. . You must have access to a **desktop/laptop** computer to download these presets .  
- it doesn't require subscription
3. Once downloaded, you'll need to send the files to your phone. **The files will be DNG format** and show up on your camera roll as blank photos. Don't worry, this is normal.
4. On your phone select the picture with preset you want to use, and then click the 3 "..."  
dot menu on the top right of the screen and select "**Copy Settings**". This will copy the Preset settings to be used on future images.
5. Now that you've got the settings copied, head on back to **the main screen of Lightroom mobile**, and locate the image you'd like to edit .
6. With the image selected, you'll want to touch the "..."  
once more, but instead of selecting "**Copy Presets**", you'll instead want to select "**Paste Settings**". This should "apply" the Preset to your image.
7. From here, you can continue to edit the image until you've got an image with which you're satisfied.

This preset needs to be purchased on a desktop computer, not on a mobile device, in order for the files to download properly. If the files are in Zip format please unzip the files first.

### Policies and FAQs

Please note that all results work differently with each photo. It will be based on the colors, tones, lighting of the original photo. Try it on different images to see what is working better, with a few easy adjustments you will get it to look great!  
All the photos
