

1. You download the text effect and open it in Adobe Illustrator.

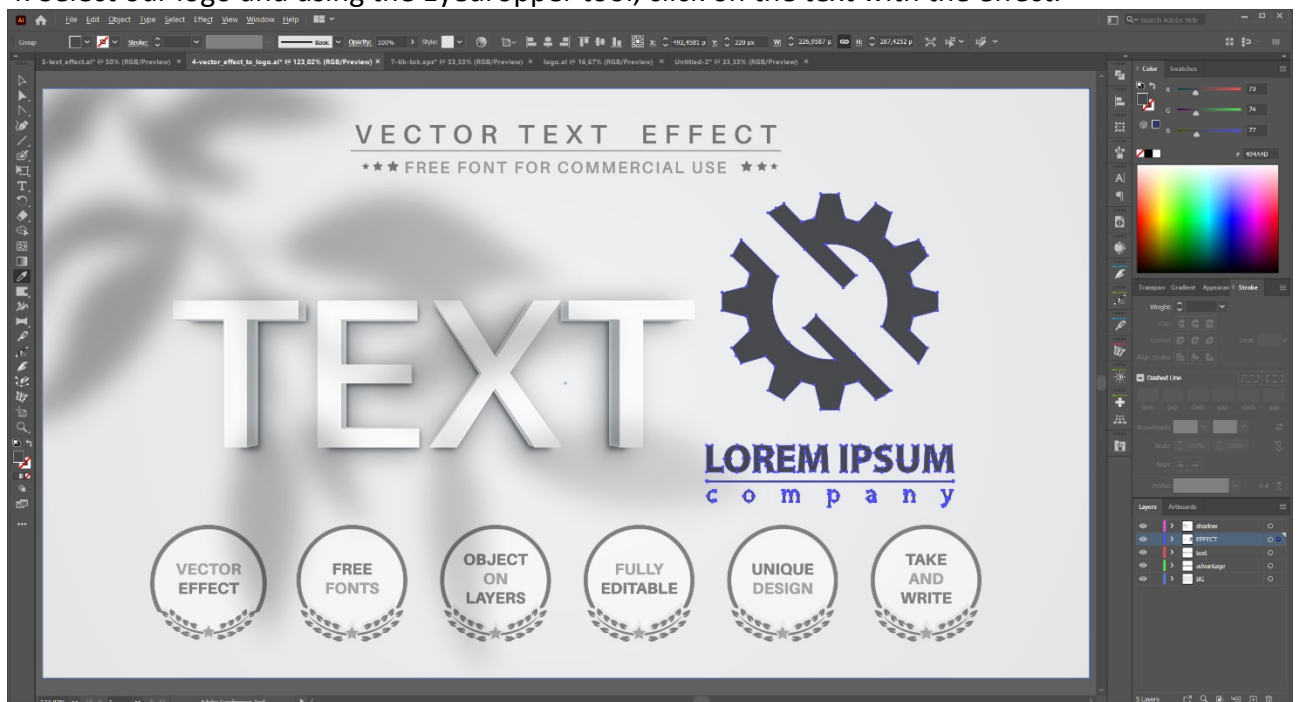

2. How do you apply the effect specifically to the logo?

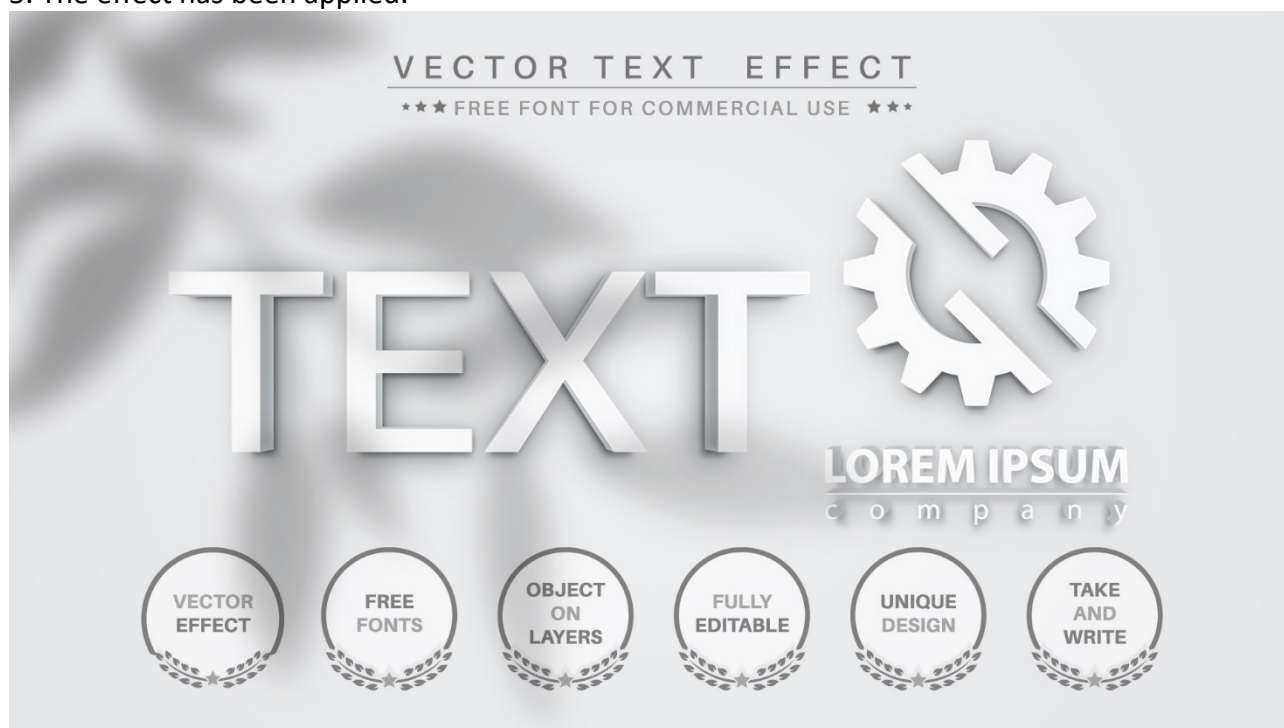

3. First, let's set up the Eyedropper tool. Double click on the Eyedropper and in the window that opens, put a checkmark in front of Appearance.

4. Select our logo and using the Eyedropper tool, click on the text with the effect.

5. The effect has been applied.

6. Done!
