• Install Pixel Cube

Easy To Install in a few clicks.

Installation Method 01:

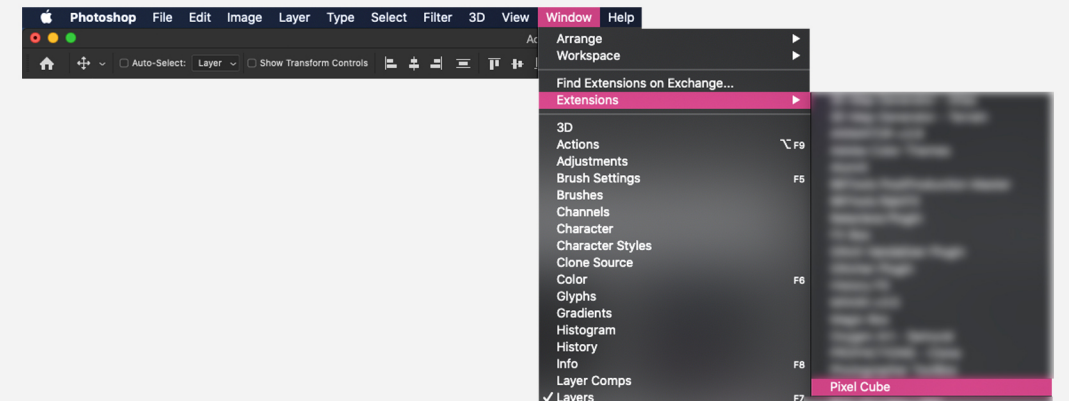

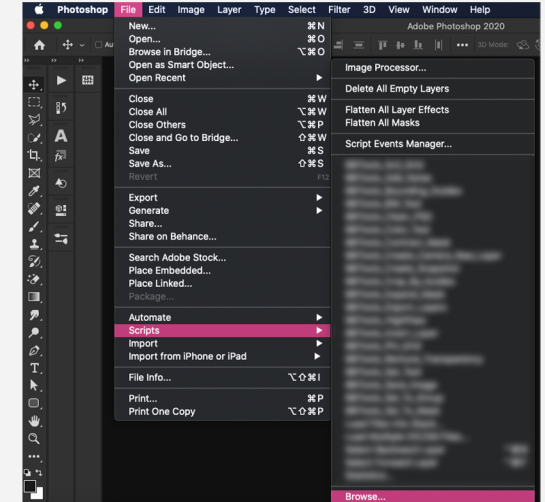

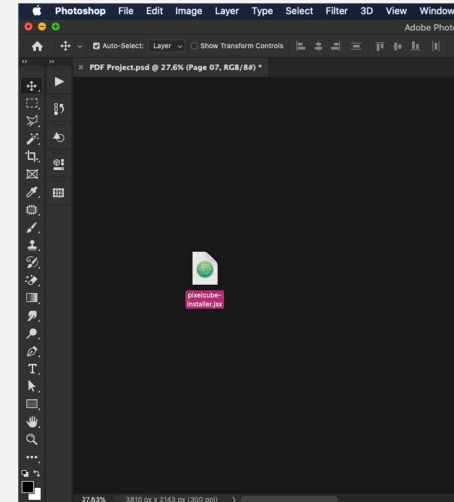

- Inside the download folder, find the file “ **pixelcube-installer.jsx** ”.
- Drag & Drop it inside your photoshop (**must be CC2015.5 or newer**).
- Restart your photoshop after installation (**IMPORTANT!**)

Installation Method 02:

- Browse the file “ **pixelcube-installer.jsx** ” from: File >> Script >> Browse.
- Restart your photoshop after installation (**IMPORTANT!**).

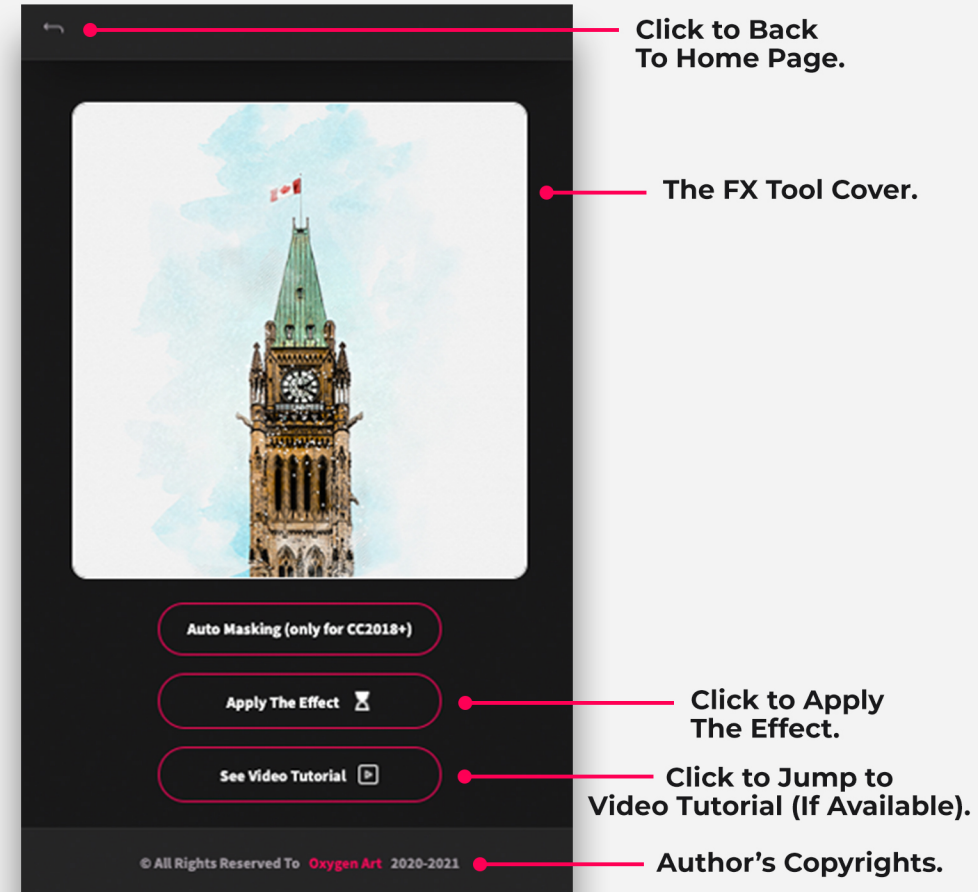

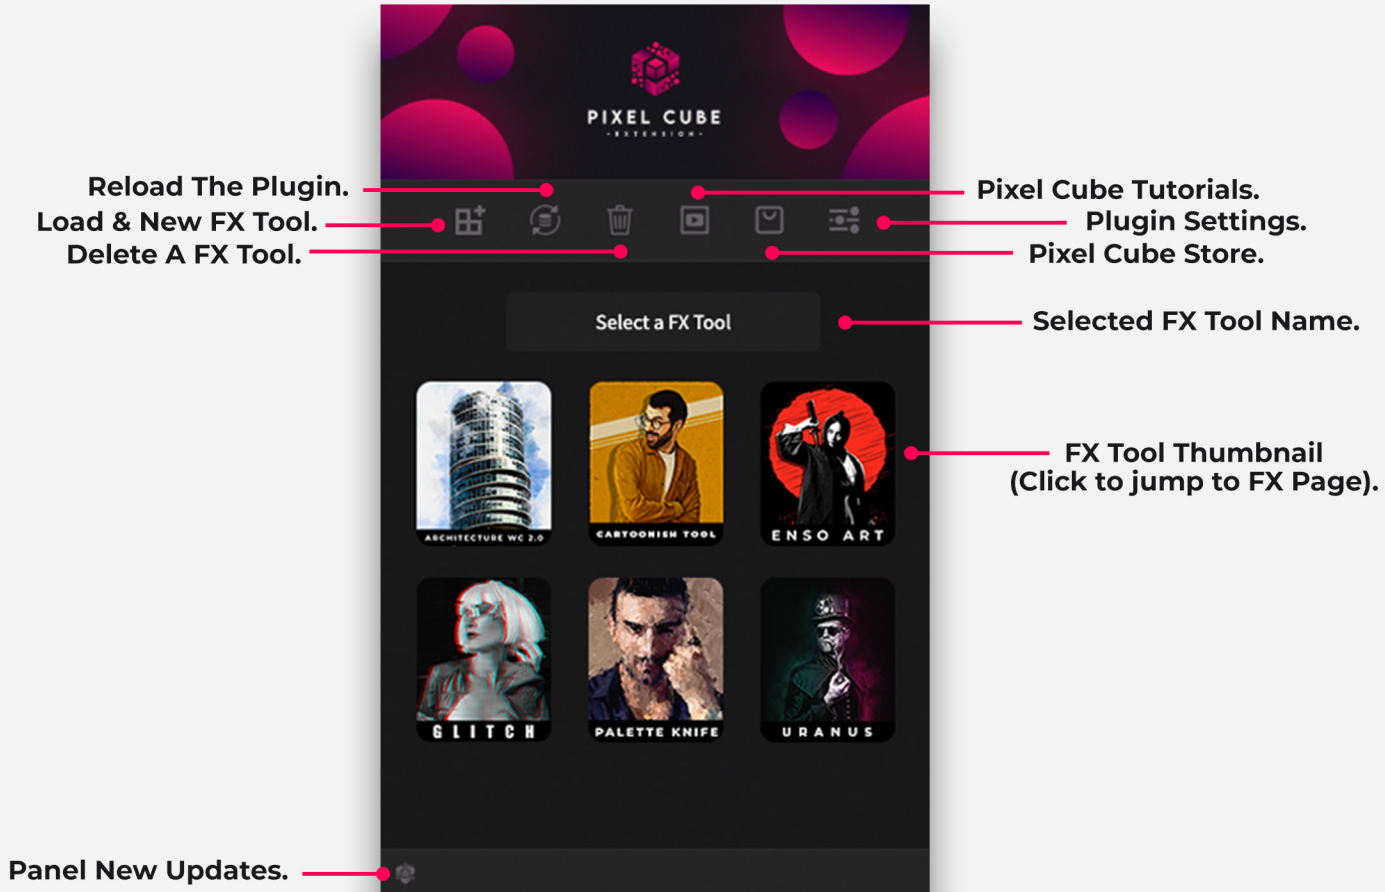

Open Pixel Cube Extension:

After Installation and restarting your photoshop, open the extension from: **Window >> Extensions >> Pixel Cube**.

• Panel Overview

Home page & FX Tool Page.

• Install A FX Tool

Free & Premium FX Tools.

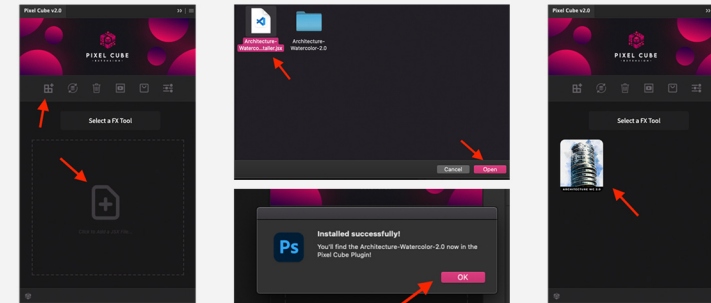

Installation Method 01:

If you don't have any FX tools installed before, you'll see the blank page where you can click to add a new one, if you already have an installed FX tool, click on the add FX Toll button from the menu (Top Left Button), you'll see a load pop-up dialogue, browse the tool installer (**ExampleFX_installer.jsx**) from the downloaded folder and click on open, Then you'll see the successfully installed message, reload the Plugin and you'll see the FX Tool inside it.

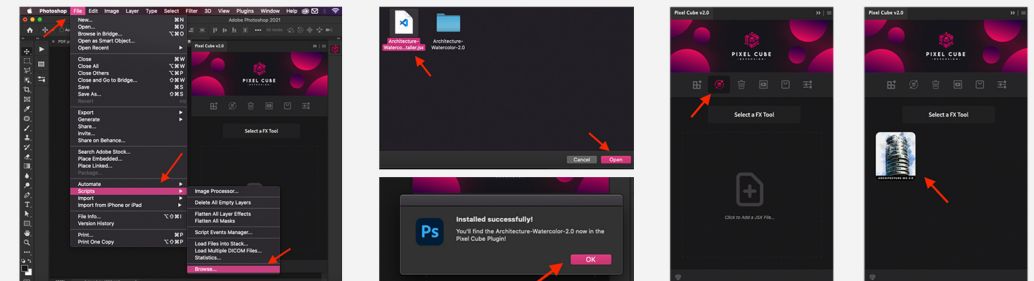

Installation Method 02:

Browse the installer file (**ExampleFX_installer.jsx**) **from: File >> Scripts >> Browse**, and open it, Then you'll see the successfully installed message, reload the Pixel Cube Plugin and you'll see the FX Tool inside it.

Method 01:

Method 02:

• Use The FX Tool

Apply The Effect in 01 Click

PIXEL CUBE Fx Tools:

If you donwload the free FX tools, install them as you read in page 04, then open the FX tool page, then click “ *Apply The Effect* ” button to apply the effect, or jump to see the video tutorial (If it’s available) that’s provided with the effect by clicking on the the button “ *Video Tutorial* ”.

Purchased FX Tools:

Read the FX tool provider’s guide first to see how to use the installed effect, or watch the video tutorial if it’s available.

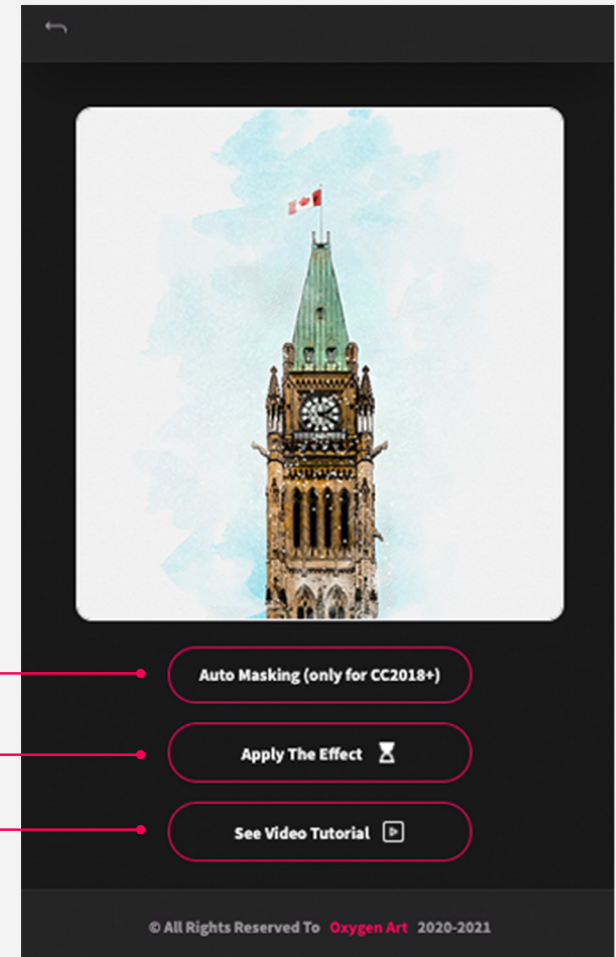

Review If You Like IT:

The Author will be happy if you give him a 05 stars review, and that will help him a lot.

If the auther offer this option to generate a mask automartically.

After preparing the work area play the effect by clicking here.

If the FX tool has a video tutorial you can watch it from here.
