

## Lovely Oil Painting Effect Actions

### FAQs

#### How do I install Photoshop Actions?

1. Open Photoshop, and click on the Actions Palette menu button (located in the top-right of the Actions Palette)
2. Select "Load Actions"
3. Select the .atn files from the download file that you have unzipped.

#### How do I use the Actions?

1. You must only have one layer.
2. The layer must be locked and named 'Background'.
3. If your layer is not locked and is named anything else but 'Background', you must do the followings; click on your layer, and from your Photoshop Menu go to: Layer > New > Background from layer. By doing that you have now locked your layer and it has been renamed 'Background'.

#### 4. Play the Actions.
